Mrs. Conrad, wife of Mr. Thos. N. Conrad, who was formerly principal of the Rockville Academy, was stricken with paralysis on Thursday night of last week and died in Washington Friday morning. She is survived by her husband and five children.

Miss Mary Gertrude Ricketts, daughter of Mrs. Matilda Ricketts, near Derwood, this county, and Mr. John C. Bean, of Washington, were married on Wednesday afternoon of last week, at the home of the bride's mother, by Rev. R. L. McNair. A reception followed the wedding.

Miss Lula M. Trundle, daughter of Mr. George T. Trundle, of Bakertown, W. Va., and Mr. John Clarence Burns, of Washington Grove, this county, were married on Wednesday at noon, at the home of the bride's parents by Rev. Lewis Rudisil, of the Methodist Protestant Church.

Garrett Johnson, colored, a resident of this county, was on his way home last Saturday night, after he had left market, and while crossing the railroad at 9th and Q streets, Washington, a car struck his wagon and damaged it. William Bowie and John Addison, young colored men of the vicinity of Brookeville, were brought here Monday afternoon and lodged in jail, charged with participating in a drunken row in that vicinity Sunday night. It is stated that about a dozen young negroes became intoxicated from drinking hard cider and engaged in a general fight. Several of them were seriously bruised. A number of other arrests will follow.

The barn of Frederick Jones, on his farm near Comus, this county, was destroyed by fire on Tuesday night, with grain, hay and harness, but the wagons and horses were saved. A large straw rick nearby was also burned. Strong efforts of neighbors saved his home. The loss is estimated at $1,200, partially insured. It is supposed the fire originated from a match dropped in the hay which a rat caused to ignite.

The new Washington and Rockville Electric Railway is about completed. The first car to make a through trip was run last Friday afternoon. It carried as passengers Engineers Hart and Upton, and made the run of twelve miles in about forty five minutes. The engineers reported the road to be in excellent condition throughout. When the feed wires are placed in position, it is said the distance can be covered in forty minutes. A regular schedule will go into effect in a few days.

Senator Bonic has introduced a bill in the general assembly to provide four police justices for this county. The county will be divided into four districts, and the governor will appoint one justice for each. The justices will have jurisdiction in all criminal cases, and the law is intended to relieve the Circuit Court of a large amount of petty business, which now burdens the docket. The police justices will receive $100 per year salary in addition to the fees now allowed by law.

The motion for a new trial in the case of Wyatt Frazier, colored, convicted at the November Term of the Circuit Court of criminal assault upon a little colored girl, was argued in the Circuit Court here Wednesday morning before Judges Henderson and Motter. Messrs. E. C. Peter and Chas. W. Prettyman, who defended Frazier at the trial, represented him Wednesday, and State's Attorney Talbott and ex-State's Attorney Kilgour appeared for the State. The Court granted a new trial on the ground of newly discovered evidence.

The presence of a large black bear in the vicinity of Cedar Grove, this county, has created considerable excitement among the people of that neighborhood. The animal made his appearance some days ago and has been seen by a number of people. Just before daybreak a few mornings ago he visited the house of a colored family near Cedar Grove and greatly alarmed the inmates by gnawing at the front door. A man who was in the house at the time discharged the contents of a musket at the unwelcome visitor from an upstairs window, but did no very serious injury as the animal has since been seen on the farms of Messrs. E. Maurice Beall, Archibald Mullican, Charles Bolt and others. Several days ago a hunting party, composed of about 50 well-armed men and boys, spent the greater portion of the day searching the county over, but failed to discover a trace of the bear, which is surmised to have escaped from captivity and is tame.

The Maryland Agricultural College has commenced a winter course of studies intended to meet the necessities of practical farmers and dairymen, and of young men who intend to follow the profession of agriculture for a livelihood, who have not the means or time to take a two or four years' course in agriculture. It occupies but six weeks in time and consists of lectures and practical work in the various branches of agriculture. The expense of taking the short course will be a laboratory fee of five dollars, and three dollars a week for board. Every school district in the State ought to have one or more students in this course.

Mr. Michael Shea, a well-known contractor, doing business in Washington City, died suddenly at his residence at Layhill, this county, on Thursday morning of last week of chronic heart disease, aged 49 years. Mr. Shea was born in Ireland and came to this country when a young man. About two years ago he purchased a farm formerly owned by Mr. Moxley, near Layhill, and has resided there since. Mr. Shea contemplated driving to Washington, but decided to postpone starting until later in the day, as he was feeling unwell. About 9 o'clock Mrs. Shea found him in an unconscious condition, and he died before medical aid could be secured. He was a large man, weighing over 250 pounds.

Schleyton, Jan. 16, 1900. JUNIUS.

Linden Items.

Dr. Clark's residence, corner 7th street pike and Forest Glen road, has been rented to a New York man, who has tastefully arranged it as a sanitarium for the cure of drug and alcoholic patients, male and female. While this good work is going on, it is said, a bar flourishes near by.

Mr. James M. Ford has the sympathy of us all in the loss of his father-in-law, Mr. Wright, who died last Monday. He was highly respected here. He came from Virginia, and was high in the Masonic order of that State.

While Jacob Smith, a painter, was at work in the Presbyterian church belfry, on Tuesday, a scaffold which he had erected very suddenly gave way, precipitating him through a ceiling hatchway, 18 feet, to the vestibule floor beneath. Dr. George H. Wright, who responded at once to a call, pronounced him considerably bruised, with indications of brain concussion, and had him removed to Emergency Hospital in the city.

Rev. R. L. McNair will preach here on Sunday next at 4 P. M. Subject, "The Monotony of Life."—Eccls. 1:9

January 17, 1900. LEX SCRIPTI.

A Horrible Accident.—About 6:30 o'clock on Thursday evening of last week Horton Bean, the eight-year-old son of Mr. Henry Bean, who resides near this place, was run over by a construction engine, which had been engaged in hauling cars upon the Washington and Rockville Electric Railway, and his head severed from the body.

The residence of Mr. Bean fronts upon the railway, and the boy is thought to have been playing outside and to have been caught by the engine, which was being backed by a watchman, Wm. Auterbach, for the purpose of getting oil.

The boy's body remained upon the track about 15 minutes, when his father, who was on his way from work, stumbled over it. He found the body about five feet from the head.

An inquest was held Friday afternoon. The jury returned a verdict that the child came to its death by being run over by a construction engine, and that Wm. Auterbach, the man in charge of the engine at the time of the accident, was guilty of negligence in not giving sufficient warning, but not criminally guilty.

Agricultural Society.—The Board of Directors of the Agricultural Society met on Wednesday for organization and elected William Dorsey, president; John H. Gassaway, vice-president; John E. Muncaster, secretary, and John J. Higgins, treasurer.

The treasurer reported receipt since the annual meeting of money from the State appropriation, which had been applied to note in Bank, reducing it to $500, against $1,150 last year. The Society owes, in addition to this, $900 on mortgage indebtedness.

On motion Messrs. John H. Gassaway and John C. Bentley were added on the part of the Board to the committee on the question of larger track, appointed at the annual meeting.

September 4th, 5th, 6th and 7th were selected as the dates for the next fair.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and, thank God, I am saved and now a well and healthy woman." Trial bottles free at E. T. Fearon's Drug Store. Regular size 50c and $1 00. Guaranteed or price refunded.

Now is the time to use the *Fulls Heater* to take the dampness out of your room. The lamp that lights your room will heat it. At Fearon's Pharmacy.

Business Men's Association.

PRESIDENT'S REPORT.

In compliance with the constitution the following report of the general work of the Association, and the results obtained during the year, is submitted:

The efforts of the gentlemen who have been active in the Association affairs have been directed to the formation of committees on New Enterprises, Transportation and Roads, Water and Sewerage, Light and Electric Power, Immigration, Entertainment, and other matters of public interest; to action suggested by these committees and to the promotion of the general welfare in such other ways as seemed feasible.

The Emergency and Relief Committee did good work during the bizzard last winter.

The Committee on Canning Factory visited Martinsburg, West Virginia, and inspected the canning works at that place; upon returning to Rockville subscriptions to canning factory stock were solicited and $2,500 (one-fifth of the sum needed) was pledged; of this $2,500 but $200 was subscribed by the class most benefited—the men who raise cannery stock, the farmers. The committee, because of the lateness of the season and difficulties encountered, were compelled to abandon the matter. It is hoped that the enterprise may now be taken in hand and pushed to success.

The Committee on Immigration published and distributed far and near an attractive pamphlet descriptive of Rockville and its advantages.

The Committee on Free Delivery of Mail ascertained that a much larger population will be necessary before a delivery service can be established.

The Committee on Transportation and Roads have been endeavoring to secure lower freight rates from the B. and O. Railroad Company.

The nucleus of a committee on celebration, to mark the completion of the Washington road, has been appointed.

A committee on electric railway thoroughly canvassed and recorded the opinions of the residents along the proposed route of the railway.

A committee on improvement of town affairs, having examined the conditions now existing, have a report ready for submission.

OSCAR L. JOHNSON,
President.

Farmers' Institute.—The Farmers' Institute will be held at Gaithersburg, Thursday, February 1st, at 10 A. M. and 1:30 P. M.

The day is long past since the farmer could afford to neglect up-to date and improved methods in all of his daily work.

Manufacturers hire detectives to keep them informed as to new methods employed by their rivals in business, and guard jealously the results of their own experiments. Yet farmers frequently refuse to admit that the way they have always practiced can be improved. They refuse to learn, and are satisfied with what they know. As a result from being the leader of affairs in America sixty years ago, the farmer is to-day the "hewer of wood and bearer of water" for the others.

The fault was his own, he let others pass him in the race. The remedy is his. He must sharpen his wits with his brain as well as his muscle. He must keep his eye open, ready to catch on to any suggestion that he can apply to his own conditions and improve them.

The Farmers' Institute is backed by the State. It furnishes people from away, who tell you in plain language what they have done and how they did it, and how success has come to them in spite of opposition.—The conditions under which they worked may not have been different in some respects from our surroundings, but they will offer suggestions from which we can get help.

Every farmer in the county should make it a point to attend the meeting. Don't let anything deter you, and remember, too, that the ladies are expected. There is much of great interest to them.

Addresses will be delivered upon the following subjects: How to select horses for special purposes—how to breed for specific uses, by Dr. J. C. Curryer; Handling milk for shipment, by C. F. Doone; Wastes in dairying, by R. A. Pearson; The farmers' poultry, by James E. Rice; Our roads, by Harry F. Reid.

Robbed.—The Georgetown correspondent of the Washington *Star*, under date of 12th instant, gives the following:

Noah Lee, a colored man, came into Georgetown yesterday with his employer, Mr. Charles Veirs, whose postoffice address is Rockville, Md., and who lives several miles outside the town on the Darnestown road. A load of hay was brought in, and the employer, after arranging for its sale, left it in charge of Lee, with instructions to unload it and receive the money, which amounted to $40. When Lee finished the work he went to a livery stable on M street to remain over night. About 11 o'clock he took the money from his pocket, counted it and placed it in his inside vest pocket. He elevated his feet on a desk and started to sleep, forgetting to button his vest.

In the office with him were Herbert Heflin, a young white man from Loudoun county, Va., and William Hunter, aged twenty-one, a colored laborer. About 3 o'clock this morning Lee was awakened by a horse breaking loose in a stall, and, getting up, he found his money was gone. The two others in the office protested their innocence of the theft. About 7 o'clock this morning Policeman Wil Hess was informed of the robbery and he took both Heflin and Hunter into custody. They were locked up on a charge of suspicion, but the money was not found on them.

Confessed Stealing Chickens.—It is expected that the arrest of William Jones, alias Peter Jackson, a nineteen-year-old negro, by Policeman Stuerman on Tuesday, will aid the Maryland authorities in clearing up the mystery surrounding the operations of a gang of chicken thieves that has been operating in Montgomery county since last November.

Jones made a partial confession to stealing some of the missing fowls. He told the police that he and another negro boy stole four chickens one night, but were chased so closely that they dropped the birds. Deputy Sheriff Jones left with the prisoner about 4 o'clock yesterday afternoon, and will charge the youth with robbing the chicken coops of Dr. Mackall, of Montgomery county, Md.—*Wash. Post of Wednesday.*

The deceased was in the 54th year of her age, and the youngest daughter of the late Willie Offutt, of Potomac district. In Memoriam.

In loving remembrance of my darling boy, Grover W. Page, who passed into a new life on November 30, 1899, aged 15 years, 9 months. Farewell, my dear, brave, noble, generous, tender, patient, loving boy, until we meet again beyond the river where our broken hearts will know no sorrow.—Therd will be no more weeping. God shall wipe all tears from our eyes on the resurrection morning. Soul and body meet again; no more sorrow, no more weeping, no more pain; soul and body reunited thenceforth nothing shall divide; waking up in Christ's own likeness satisfied.

Rest, sweet angel, Grover, rest. He has gone to live with the angels, and we know he is happier there, for into that beautiful country there cometh no sorrow.

And we know when life's journey is over,
When we reach that far-away shore,
We will meet our long loved Grover,
Where parting will be no more.

Gone but not forgotten.

By his Father.

Strange.

A man residing on the Eastern Shore of Maryland, recently wrote his name and address on a postal card and simply addressed it I. Benesch & Sons, Baltimore. By return mail he received a handsome 128 page catalogue, containing over 300 fine half tone illustrations and very valuable suggestions on economical housefurnishing at rock bottom prices, also a personal letter from the largest model home furnishers in the U.S.—All for a postal—Try it.

A Good Preparation.

We publish an advertisement of Kodol Dyspepsia Cure in our columns this issue, and wish to say to our readers that we believe this preparation is worthy of a trial by any person suffering from that agonizing disease. We honestly believe it will do for you all the manufacturers claim for it.

Kodol Dyspepsia Cure is prepared by the well-known and reliable firm of E. C. DeWitt & Co., Chicago, and from our long experience in a business se use, with that firm as advertisers, we feel safe in sa ying, that they would not place on the market a preparation for the cure of dyspepsia unless they had a remedy of the highest merit and conscientiously believed it would cure that almost universal complaint.

We further add that if this preparation is equal to the other well-known remedies made by them, viz: DeWitt's Little Early Risers, DeWitt's Witch Hazel Salve, and One Minute Cough Cure, it will speedily win its way into public favor.

We cheerfully and heartily give our public endorsement to this concern, and the reliability of the goods they manufacture, which latter has been largely the means of their success; and in writing this voluntary endorsement on our part, we feel that we are simply performing a duty that we owe our readers.

THE SUN is the highest type of a newspaper.

THE SUN's reports from all parts of the United States are unsurpassed.

THE SUN'S Cable Service is the finest known; the troubles in the Philippines and in South Africa demand competent correspondents and vast expenditure of money and labor in getting the news. When you get THE SUN you get news and intelligent presentation of facts with it, as well as carefully prepared articles of editorial writers of highest standing. When you read a daily paper, whose principal recommendation is its cheapness, you get the dregs—generally very poor dregs at that.
