RIPLEY, Tenn., June 1, 1901.—Dr. E. W. Hall, St. Louis, Mo.: Having tried various remedies without satisfactory results, I was persuaded to give your "Wonder" a trial. I have used one bottle and although my case is one of long standing that baffled the skill of the best physicians, yet it yielded at once to the "Texas Wonder," which I heartily recommend to all suffering from kidney troubles. Yours truly, W. H. BRITTON, Pastor Baptist Church, Ripley, Tenn.

A NEGRO CHILD KILLED

SHOT BY SMALL BOY AT MID-NIGHT.

Dick Morgan, a Negro, Hurling a Lamp at His Wife After Chastising Her With a Beer Bottle.

Advertiser Bureau, Selma, August 3.

At Tyler Station a negro child, 2 years of age, was accidentally killed by the discharge of a pistol in the hands of a little negro by the name of Planter-Tarver, twelve years of age, last night at 12 o'clock. He was fooling with the weapon, and in some manner it was discharged, the ball striking the little girl who was asleep on the floor. The bullet entered her throat, coming out at the back of her neck. The child lived about three hours after the accident. It is not known what the boy was doing with a pistol at that hour of the night.

Threw Lamp at His Wife.

At a late hour on Saturday night a negro by the name of Dick Morgan, who lives on the South Side, attempted to chastise his wife for some real or fancied offense. He first used an empty beer bottle on her and that not proving effective enough he grabbed up the lamp and hurled it at his weeping spouse. She dodged the lamp and when it struck the wall it was smashed into a thousand pieces and the oil lighting the house was soon in a bright blaze on the interior. Messrs. Sam Woodward and Ed Riley, living at Mrs. Woodward's, saw the blaze and were soon on the scene and succeeded in putting out the fire. The belligerent husband was up before his Honor this morning for his little diversion and was told by Mayor McLeod that a beer bottle has the wrong kind of an instrument to trash one's wife, and as for throwing kerosene lamps, that was positively against the law, unless he blew them out before hurling them, and he against him for allowing his angry passions to arise and losing control of his temper in such a manner.

Has Scarlet Fever.

A few days ago Capt. V. B. Atkins and family were called to Martin's Station to attend the funeral of Mrs. A. J. Martin, the mother of Mrs. Atkins. They have remained out there since, and when Captain Atkins went out on Sunday to visit his family, he found one of his little sons, little boy, a general favorite in Selma, and it is hoped that he will pull through all right, though he was quite sick on Sunday night. There has been a good deal of

scarlet fever in Selma, but it has been of a very mild type, and that leads to the hope that this bright little boy will soon be up.

No Sunday Entertainments.

The street car line has just opened up business at the extension of the line at the end of "the loop," on the banks of the Alabama, just above the mouth of Valley Creek. The pavilion is not finished, but a lot of moving pictures were put on Saturday night, on the common adjoining the pavilion, and hundreds of people went out to see them. It was announced at the close of the performance that the pictures would be repeated on Sunday night. Superintendent Hall of the Suburban and Street Railway says he has the owner of the moving picture show employed by giving him such a per cent of the receipts of the line between 8:30 and 10:30 the nights a quiet performance is given, but that he had nothing to do with the Sunday night performance; did not know that the announcement was going to be made, and that hereafter no performance will be allowed of that character, as he does not approve of Sunday shows. This announcement of Superintendent Hall has met with great favor from the moral element of the community and will go a long way toward putting an end to the nuisance that has been a great town for observing the Sabbath in a proper manner.

Death of Good Man.

Mr. W. E. Hobbs, one of the best men on the South Side, died at his residence on Saturday and was laid to rest yesterday afternoon at Shiloh Church. Mr. Hobbs leaves a wife and six children. He was a quiet, good citizen. He was related to some of the most prominent families in the county, and there is sincere regret in the community where he lived over his death.

Young Lady Very Ill.

News reached Selma this morning that Miss Lida Milhous, daughter of Capt. W. P. Milhous, was dangerously ill with appendicitis at the family residence near Martin's Station. A physician from the city went out this morning to consult with the local physician and it is feared that the worst will come unless she gets relief soon. Miss Lida is a popular belle of West Alabama and has a large number of relatives and friends in Selma who will be exceedingly sorry to learn that she is so near death's door.

Elk Committee's Confer.

Mr. Felix Bly, representing the Elk Lodge of Demopolis, H. Lichtenstein, representing the city of Greenville, and John G. Bodey, representing the Tuscaloosa Elks, were in conference today with the local Elks, about the Street Fair to be held in the various cities in the fall. Talladega was to have a representative, but for some reason failed to show up. Mr. Lichtenstein, while not an Elk, came here to represent the city of Greenville, which desires to get in on the circuit and hold a fair this fall. A number of Street Fair promoters from Columbia and Nashville, Tenn., were to have been on hand, but they failed to put in an appearance. The Selma Committee of the Elks have propositions from a great many street fair companies, however, and there will be no trouble in the world in securing a long list of attractions for the Street Fair that is to take place in this city on October 14. The fair will open in Selma and will, after showing here, visit Demopolis, Tuscaloosa and Talladega, and possibly Greenville, but in what order will be made known later.

THE I. T. U. CONVENTION

BIRMINGHAM TO ENTERTAIN THE PRINTERS.

Delegates from Canada, Hawaii and Porto Rico Are Expected—Finding of Peddler's Pack Causes Suspicion of Murder.

Birmingham, Aug. 3.—(Special.)—Preparations are being completed for the International Typographical Union's annual convention which meets in this city Monday next. The Committee on Laws of the Union will gather here Thursday of this week. President James M. Lynch of Syracuse, N. Y., and Secretary-Treasurer J. W. Bramwood of Indianapolis, will arrive here Wednesday with their entire clerical force and will open headquarters in the Hotel Hamilton, a suite consisting of four rooms with a parlor which has been engaged. The local union, which will have charge of the entertainment of the guests, will also have headquarters at the Hotel Hamilton. At the meeting of the local union yesterday, final arrangements for the reception of the delegates were made. The Convention will bring together about 100 accredited representatives from all sections of the United States, Canada, Hawaii and Porto Rico. In addition the Convention will attract fully five hundred more delegates who will directly or indirectly be interested in the proceedings. The sessions at the Hotel Hamilton will be held in the Elks Hall which will be fitted up with desks and chairs. A pleasant program of entertainment has been prepared for the visiting printers, and funds are now being raised to carry out the program. It will include an excursion around the mineral district on a special train for the purpose of according the visitors an opportunity of seeing what Birmingham has in the way of mineral resources and how they are being developed. A banquet will be given one night during the convention. The Convention will be in session a week. It will have a vast amount of business to transact. A strong delegation will come from Cincinnati for the purpose of capturing the next national convention. It is generally admitted that Cincinnati will win, chiefly because it was in that city 49 years ago that the Union was first formed. The event will be celebrated next year as a golden anniversary, and it is generally admitted that the celebration should occur in the city where the Union was founded. St. Louis will also send a delegation to fight for capturing the Convention of 1903 and make it one of the attractions during the Louisiana Purchase Exposition.

A Murder is Suspected.

The sheriff's office is undertaking to solve the mystery surrounding the finding of a large bundle of goods, apparently a peddler's pack, in the weeds in the corner of a field on W. Madison Street, near the Bessemer dummy station. The pack contained a lot of clothing, shoes, neck wear, etc. It had evidently been in the place where found for a number of months, as it was weather-beaten and there was no tag or label on it. The pack was found by a boy named John H. Burch, who has no recollection of the owner for the pack. He is of the opinion that some peddler met with foul play and that his pack was hid in the weeds. However, there is no evidence in the neighborhood where the goods were found, but some think that the peddler might have been murdered at some other point and his pack, or might have taken the pack and, fearing detection, concealed the pack in the weeds. The fact that no jewelry or other small articles were found in the pack strengthens the theory of foul play for robbery. The sheriff will pursue the matter further.

Hurt in a Runaway.

This morning while a funeral party was returning from the burial of the late Clyde Shahan, at Oak Hill cemetery, a pair of horses attached to a carriage attempted to run away. The inmates of the vehicle were getting out at the time and Mrs. S. M. Ogletree was just in the act of stepping from the carriage when the moving vehicle threw her down and ran over her, inflicting her severely, though not fatally. The horses were stopped before they had gone far.

Erskine Ramsey Resigns.

Erskine Ramsey, Chief Engineer of the Tennessee Coal, Iron and Railroad Company, has tendered his resignation, but it is expected that he will remain with the company for some time yet, until the new engineer is acquired, and until he has been selected. Mr. Ramsey is one of the best known mineral experts and developers in the district.

The Taff Investigation.

The coroner's jury which has been investigating the murder of Patrick Taff, who was found dead in his watermelon patch at Oak Grove ten days ago, his skull having been fractured, resumed its sitting today. The jury went to Oak Grove this morning to take a look at the scene of the crime and to make a thorough investigation. It is stated that during the recess of the inquest a number of important facts have developed. The investigation is being given out, and the Davis brothers who were arrested last week on suspicion of having some connection with the murder, are still being held.

State Shooting Tournament.

The Alabama State shooting tournament opens at the grounds of the Birmingham Gun Club at North Birmingham tomorrow morning. There are already 75 marksmen from various parts of the State here to take part in the contests. For the first day a very inviting program is offered, the prizes amounting to upwards of \$200. There will be ten prizes for the opening day. Lunch will be served on the grounds and an interesting program carried out.

Moses Jackson's Troubles.

Moses Jackson, a white man of Brookside, was placed in the county jail this morning, on the charge of assault with intent to murder his wife. It is alleged that he attacked her with a pocket knife, but she escaped without injury. It is stated that Jackson's mind has become affected from the excessive use of morphine and that he is on foot to have him committed to the State Institute for Insane.

FIRE ON NORTH COURT STREET

F. L. Moreland Printing Company Gutted.

At 3 o'clock this morning fire was discovered in the two-story brick building, No. 202 North Court Street. The building is owned by the James Toole Estate. The ground floor is occupied by the F. L. Moreland Printing Company. The upper floor is used as apartments. When the fire was discovered a vigorous blaze was burning almost midway of the ground floor, which is almost 15 feet deep. The occupants of the rooms upstairs were awakened by persons across the street, and escaped uninjured.

While the contents of the lower floor were completely gutted by water, the building was saved.

The loss could not be learned up to the hour of going to press. The building was insured.

JACOBI CASE ON TRIAL

MISS PARKER WAS NOT IN COURT.

Her Brother Testified That the Young Woman is Now in Georgia. Will Be Heard Again Today.

The case of the State of Alabama against Sanford Jacobi, charged with assault to ravish, occupied the attention of the city court all of yesterday and when court adjourned at 1:30 o'clock last night the taking of testimony by the State was not completed. The court will convene again at 9 o'clock this morning and the taking of testimony will be resumed.

Miss Lizzie Parker, the young woman who figured in this case when it was first brought on for trial yesterday, her brother, C. R. Thomas of Birmingham, was here and remained at the side of the solicitor during the trial and the taking of testimony will be resumed.

Young Jacobi, the defendant, was present and occupied a seat between his father and younger brother. His lawyers, Colonel A. A. Wiley and Mr. J. W. A. Sanford, Jr., sat next to them.

J. J. Terry, who is assisting Solicitor Lomax in the prosecution, Canada, Hawaii and Porto Rico. The trial attracted much attention yesterday and the court room was crowded during the day and until the adjournment last night.

The select jury continued on a brief time. With one exception the jury was made up of the regular panel for this week. The jurors were not allowed to separate last night and they spent the night at the court house. The court had provided cots for them and they were made as comfortable as possible.

On account of the absence of Miss Parker, whom it is said is out of the State, the Solicitor General asked the court to adjourn until the 10th of this month, which was granted. The case was tried before and have them tell substantially Miss Parker's testimony. This was objected to by the defense and argument of counsel was heard. Judge Thomas held that the testimony was competent and the hearing of the case was proceeded with.

The details of this case are familiar to the public. Jacobi was charged with the attempted to criminally assault Miss Lizzie Parker of Clanton in June, 1900, when the young woman spent one night in Montgomery on her way to South Alabama to visit her father. He was arrested in Montgomery where he was arrested and brought back to Montgomery. He made a \$2,000 bond. The case was tried in November and resulted in a mistrial.

There was a large docket set for yesterday but the case against Sanford Jacobi was called first. After brief consultation the State announced ready. The defense asked for a continuance because of the absence of J. W. Martin, former of Montgomery. The Court did not deem this a sufficient excuse and the case was called.

The jury was empaneled as follows: J. W. Myrick, A. J. McJannet, E. L. Davis, J. D. Dean, H. Maurrell, H. McNeill, J. McLenore, R. D. Chastain and J. P. Wilson.

Capt. W. H. Maybin, who was at the depot the night Miss Parker was taken to Montgomery, and Ed Iverson, the negro hackman who drove Jacobi and Miss Parker, were put on the witness stand by the Solicitor. Their testimony was substantially the same as at the first trial of the case. Mr. C. E. Thomas of Birmingham, was the next witness called. He testified that he was a half brother of Miss Lizzie Parker. He said that he did not know just where she was at present, but thought she was in Georgia. He said that he had a letter from her two weeks ago dated Buena Vista, Ga. Mr. Thomas said his sister did not mention if she intended returning to Alabama. He said that she left for Georgia in January and that the family home at Clanton had been broken up and with the exception of a few articles of furniture everything had been sold. He said his sister said she would never go through the ordeal of another trial.

Henry Hughes, Deputy Clerk of the City Court, testified that two attachments had been issued for Miss Parker and that they had been sent to Butler and Chilton counties. Court then adjourned until 3:30 o'clock.

On reconvening the Court listened to argument by counsel for two hours.

On account of the absence of Miss Parker the State desired to introduce testimony of the jury who sat on the case which resulted in a mistrial, and to have them testify in substance what Miss Parker had testified. The defense objected and argument was heard which lasted two hours. Speeches were made by Colonel Wiley, Mr. Richardson, Mr. Lomax and Mr. Sanford.

At the conclusion of the argument Judge Thomas overruled the objection of counsel for the defense and the testimony of the jury was allowed.

Mr. W. H. Mico, one of the jurors who sat on the case when it was tried in November, 1900, was called. He testified at length as to the testimony of the jury and the State's case, which was published at that time.

Police Officer Cowling was the next witness. He repeated his former testimony as to going into the house of Mat Howard with Police Officer Rapson and Jacobi was there with Miss Parker.

At the conclusion of Cowling's testimony the Court at 7:30 o'clock adjourned.

Says Selma Will Stick.

Memphis, Aug. 3.—"The Selma team will

play through the season. It will not be transferred to Mobile, Atlanta or Montgomery, as has been reported; at least not this year," said Manager Pender to-day after sustaining a fourth straight defeat at the hands of the local team. Pender said that President Peter of the Selma Baseball Association had already entered into negotiations for the removal of the Selma franchise to another city next year, but that the team would stick out the present season in Selma and that games scheduled for Selma would be played at home and not entirely abroad as has been reported.

Couldn't Hit Skopec.

Little Rock, Aug. 3.—Skopec had Selma at his mercy today, allowing but four scattering singles and striking out ten men. He also led the locals at the bat with a triple and a single. PALE FACE—WEAK NERVE.

Any lack of iron in the blood shows in the face. Pale is the sign. Pallor also means much more. It means a starved nervous system, a debilitated condition of the vital organs, poor circulation and impaired digestion. The nerves, the muscles and all the organs of your body get their energy and all the materials for their repair from the blood. Pallor shows that all these are losing vitality. Not a day should be lost in restoring the richness and purity of the blood. Get iron, get it by taking the iron in your blood requires. The iron in Dr. Harter's Iron Tonic is the perfect kind. It goes to the stomach directly into the blood without any change. An hour after you take it, it has become part of your blood and is doing good.

In addition to iron this time-tested remedy contains other ingredients almost as valuable as iron. It makes you feel better, it helps to build up nerve and muscular tissue, it aids your digestion and enables you to get the good of the food you eat.

Dr. Harter's Iron Tonic will build you up and make you well from head to foot. With the new health will come strength and vigor that may have been missing for years.

This remedy has been endorsed by physicians and the public for forty-five years, and is sold only by the Dr. Harter Medicine Co., Dayton, Ohio. Sold everywhere.

BEAUTIFUL AND COMFORTABLE SCHOOL BUILDING!

Excellent Text Books. Competent Instructors.

School newspaper edited by pupils. Monthly reports. Athletic sports encouraged, but subordinated to intellectual training. New Gymnasium built and equipped especially for use of pupils. Boarding pupils live at the home of the principal and as the number of rooms is limited, early application is advisable.

EXCELLENT TESTIMONIALS.

At moderate rates this school offers to Montgomery parents advantages not likely to be secured elsewhere at three times the cost. Why spend two or three hundred dollars to send a fifteen year old boy to the preparatory department of some distant college, when the University School offers good advantages for less than half that sum?
