THOMAS BLACKSON WAS KNOCKED FROM BOAT

The drowning of Thomas Blackson, of Marcus Hook, has cast a gloom over the borough in which he resided. The report that he had been drowned at Burton's shipyard was incorrect, for the unfortunate man was knocked by the boom of a boat, in deep water, and sank before assistance could be given him.

Mr. Blackson, in company with Henry Willey, also of Marcus Hook, started in a sail boat for Wilmington, where the former intended to visit his mother, while Mr. Willey attended to some business. Owing to the way the wind was blowing, the men were obliged to tack across the river in order to get down the stream. They had sailed to within a short distance of the bar, about opposite Lindenthorpe Park, and were "going about" when the accident happened. Mr. Willey was steering the boat, and just about the time the boat swung around, Mr. Blackson started to walk from the bow of the boat to the stern. His companion called to him to look out for the boom, and said he had no sooner spoken than he heard a splash in the water, and knew immediately that Mr. Blackson had been knocked overboard.

It is the opinion of many that the boom as it swung around struck Mr. Blackson with such force as to stun him, but had not been the case, he would have been handicapped by his inability to swim and the strong current, and would not have been able to keep above the surface until assistance arrived. The body has not been recovered.

Howard G. Brown.

Dear Sir—I have been troubled for some time with a heavy feeling after eating which became at times really distressing. It was in part due to inactive liver and its accompanying constipation. I have tried numerous dyspepsia remedies without any relief, and I have found more relief from "FOODIGESTS" than from all others put together. I will be glad to answer any inquiries.

Gratefully yours,

MR. I. COHEN.

"FOODIGESTS" will actually increase the demand for food products; it has started so many appetites going.

TO REPAIR SMYRNA STREETS

Matter That Authorities of That Town Will Give Special Attention to

Special to the Evening Journal. Smyrna, July 28.—A matter that will be given much consideration in the future by the town authorities is the repairing of several pavements in the principal sections of Smyrna. A number of property owners are to be notified that their sidewalks must be put in good condition at once.

In the past little attention has been paid to notices sent out that pavements must be repaired, the men complained with the notice by having his man tear out a brick or two and replace with new one. He continued this practice for four years. The trouble has been the notices read "repair," and the property owner, in many instances would simply walk from the bow of the boat to the stern. His companion called to him to look out for the boom, and said he had no sooner spoken than he heard a splash in the water, and knew immediately that Mr. Blackson had been knocked overboard.

It is the opinion of many that the boom as it swung around struck Mr. Blackson with such force as to stun him, but had not been the case, he would have been handicapped by his inability to swim and the strong current, and would not have been able to keep above the surface until assistance arrived. SHOE FACTORY FOR DENTON

Will Be Established in That Caroline Town Soon. Other Items

Denton, Md., July 28.—Several thousand people attended the holiness camp meeting, near Denton, Sunday. Rev. F. T. Tabler, of Trappe, conducted praise service at an early hour in the morning and later the Rev. W. M. Knapp, of Cincinnati, preached. Mrs. Emma McQuay and the Rev. Mr. Ferguson led a praise service in the afternoon.

Workmen are putting up a line of telephone poles from Denton to Queen Anne. The work is being done by the Bee Line Telephone Company, a local organization, which contemplates service for the whole of Caroline county, an exchange at Denton and connection with the Eastern Shore telegraph and telephone lines, which will have an outlet at or near Elkton, and also connection with the Diamond State service which has been lately established in a great many towns in Delaware.

Prof. William S. Crouse, who has been filling the unexpired term of School Examiner M. B. Stephens, was yesterday elected School Examiner of Caroline county. Charles W. Byrn, a former principal of the Denton High School, was some time ago selected for the position, but declined it. Professor Crouse has been in school work for many years in Caroline and Talbot counties. His first position in Caroline county was that of principal of Preston Academy. Later he had charge of St. Michael's High School for more than twelve years. For several years past he has been principal of Denton High School.

About \$15,000 of the stock of the proposed shoe manufacturing company to be organized in Denton and in Baltimore city. It is believed that the balance necessary, \$6,000—can be secured. A committee is at work taking subscriptions, with fair prospects of success. A number of enterprising citizens of Denton are at the head of the movement, and others are interested. The few factories which have been established in Denton lately, have greatly increased the business of the town and the people are appreciating the benefits.
