

CONFERENCE ACTS

Dr. John P. Ashley Was Summarily Fired From Albion.

ALLEGED SICKNESS A FAKE

The Doctor Was Too Gay and the College Authorities Dealt With the Matter With Commendable Promptness.

Albion, Mich., Sept. 17.—Dr. John P. Ashley was fired speedily and bodily from the presidency of Albion college and his alleged sickness and consequential Hot Springs visit were largely of a fake nature, and all tending to carry but the first idea instituted by those concerned, of keeping the matter sub-rosa.

Early in February information came to parties connected with the college that Dr. Ashley was guilty of conduct involving a very serious departure from correct standards. The name of the woman in the case is being suppressed. She, however, was of a very prominent Methodist family here.

With the utmost promptness, the college authorities dealt with the matter. From the hour when the situation became known, Ashley was not permitted to set his foot upon the college campus, nor exercise any function as a representative of the institution. In the interests of the college, of his family, and of other persons concerned, it was felt by the college authorities, and concurred in by all the newspaper representatives, that the whole matter ought to be dealt with without a widespread publication. The general facts in the case were known by all the newspaper correspondents, but at a conference between them and the college authorities it was agreed that every interest would be better served by refraining from a publication of the actual facts in the case. Every interest of morality has been served by the prompt and vigorous treatment of the case by those in authority in the college and those in the church.

Fire Loss of \$60,000.

Pontiac, Mich., Sept. 17.—Although badly crippled by Sunday's fire, the buggy body works of O. J. Beaudett & Co. will not be compelled to close down, but will run night and day with the part of the works which was not destroyed. During the progress of the fire it became necessary to pump water from the Clinton river into the city mains, and as a consequence citizens will have to drink river water for a day or two or resort to wells. A short time ago \$50,000 was voted to improve the water system, but the improvements have not been made. The loss to the Beaudett company will approximate \$60,000, with \$47,000 insurance.

Deaths in Michigan.

Lansing, Mich., Sept. 17.—There were only 2,672 deaths returned to the secretary of state for the month of August, corresponding to a death rate of 13.1 per 1,000 population. This is an unusually low mortality for August, the number of deaths returned being nearly 300 less than the number returned for August, 1900. Owing to the absence of extreme heat during the greater portion of the month, the deaths of infants under 1 year of age, 646, were not as numerous as usual, although they constituted over 20 per cent of the total deaths. There were 210 deaths of children, aged 1 to 4 years, inclusive, and 615 deaths of persons over 65 years of age.

Flint Man Badly Hurt.

Flint, Mich., Sept. 17.—Robert Keyes of Saginaw, employed by Lynch & Lynch, paving contractors in Flint, was fatally injured Monday morning. It is thought his back is broken. No warning that the pole was coming was given the unfortunate man.

A HEAVY FINE

Bawden, the Campus Orator, is Fined for Keeps.

Detroit, Mich., Sept. 17.—Last night Tom Bawden, the Campus orator, was convicted of disorderly conduct in Police Justice Selzer's court by a jury. The case had been going on from 2 o'clock in the afternoon. The verdict came as a surprise to Tom, and his attorney gave notice of appeal, but Superintendent of Police Downey went home chuckling. Before the jury came in Capt. McDonnell of the detective bureau had said that no matter what the verdict was, Bawden would not be allowed to talk on the Campus.

"We round up the crooks around town regularly without warrants," said Capt. McDonnell, "and there is no reason why we can't follow the same policy with Bawden till he gets tired of it."

Capt. Spillane of the central precinct gave expression to similar sentiments. Judge Sellers placed the fine up at the limit, \$50 or six months, remarking that he felt that the defendant had been given a fair trial, and that he would make the fine such as would tend to prevent a recurrence of the offense. Bawden immediately gave bonds for his release, pending the result of his appeal.

DAMAGE BY STORM.

High Westerly Gale Destroyed Large Amount of Fruit.

St. Joseph, Mich., Sept. 17.—A high westerly gale prevailed during the night, and half the docks were carried away. The gale has made hundreds of acres of apple, peach and pear orchards fruitless. Reports show that full nine-tenths of the remaining crop was tossed to the ground. It is roughly estimated that 200,000 bushels of tree fruit is now on the ground, and the loss to growers is not less than \$50,000. There are 100,000 packages of fruit on the docks awaiting for Chicago boats to clear.

The concussion of the explosion was terrific, and the entire entry was badly caved in.

LABOR FEDERATION

Twelfth Annual Session Now On in Flint.

THE GARNISHEE LAW ROASTED

President Boyd Says the Last Legislature Was Opposed to Labor—Largest Attendance in History of the Organization.

Flint, Mich., Sept. 18.—The twelfth annual meeting of the Michigan Federation of Labor began here yesterday morning with about 60 delegates present from Detroit, Grand Rapids and other cities. At 2 o'clock in the afternoon an address of welcome was delivered by Fred Hempstead of the local painters' union, and resolutions of condolence on the death of President McKinley were adopted.

President David Boyd in his report said the Michigan Federation of Labor was well in the lead of state organizations, but more money was needed for its work. He declared the Nevins garnishee law of the last legislature was vicious and injurious to the laboring man, and declared there had never been a legislature as opposed to the laboring man as the last. He desired the members of the federation to take steps looking to the election of men to the legislature who would be friendly to the cause of labor and declared for the re-enactment of the Chinese exclusion act on its expiration next year, and in favor of a convict labor bill. President Boyd declares this will be the most successful convention ever held. The number includes one lady delegate, Mrs. Anna Herbert of Saginaw, representing the Laundry Workers' union and Ladies' Union Label League. A mass meeting will be held in the court house this evening. Thursday night the delegates will banquet at the Bryant.

WILL DEFY THE

Tom Bawden Says He Will Try It Again.

Detroit, Sept. 18.—Despite his conviction in the police court on a charge of disorderly conduct, Tom Bawden announces that he will make another attempt to speak on the Campus next Saturday night. In defense of his determination to defy the police authorities Bawden says:

"Believing that the present police commissioner was put into office to conserve the interest of those who, like himself, profit from investments in special privileges of franchises and land monopoly, I have unhesitatingly attacked the conditions which made his appointment possible, and to that I attribute the campaign waged against me."

"So long as the privilege of using the Campus is permitted to the Salvation army, the volunteers and others of that stamp, I think I am justified in attempting to use it to teach the single tax."

"The assistant prosecutor said at the trial that I merely sought after notoriety. That isn't true, as I could achieve it in easier and more profitable ways if that was all I wanted."

"I am prepared to fight this thing to a finish with the police department and to let the people of Detroit see to what extent their rights have been surrendered to a self-constituted guardian of the public peace."

Bawden was fined \$50 or six months by the police justice Monday and took an appeal.

ANN ARBOR SPEAKS.

Contractor Wooley of Ann Arbor Makes a Public Statement.

Mr. Edwin Wooley, Contractor and Carpenter of Ann Arbor, adds his voice to that of the army of Michigan people who indorse the little conqueror. Our representative found him at his place of residence, No. 615 Fountain street. Mr. Wooley appreciates "a good thing," as do most of our readers, and he does not hesitate to tell his experience for the benefit of others. Endorsement of this kind has made Doan's Kidney Pills a household word throughout the state. The good they have done has won them many a title and such worthy names among the people as the "little conqueror of kidney ills," "little enemies to backache," "modern wonder-workers," etc.

Mr. Wooley says: "I was subject for years to attacks of backache or pains through the loins and kidneys, generally of a dull, heavy, aching nature, but often when the weather changed or when I moved awkwardly they became sharp twinges of pain. As I was doing work which required stooping it was very painful; exceedingly so if I caught cold, which as a rule settled in my loins. I tried various remedies, but was never successful in obtaining any permanent benefit until I used Doan's Kidney Pills. At the time my back was troubling me a great deal, but shortly after I began the treatment the aching abated, and when I had finished it I was cured. This is months ago and up to date there has been no recurrence of the trouble."
