Sound Leading in Whisky Traffic

"There is far less bootlegging in Eastern Washington than in the Puget sound country," said State Prohibition Director Donald A. McDonald Saturday, on his return from an inspection tour of the state.

SHOT COBBLER, GOES TO PRISON

"Tried Hard Enough to Be a Murderer," Says Carmody

Ten to 20 years' imprisonment in Walla Walla prison was punishment meted out by Judge Boyd J. Tallman to W. J. Cole Saturday, for the shooting of Luke Sucevich, cobbler, at 704 Madison st. January 26.

"This man tried hard enough to be a murderer," Deputy Prosecutor John D. Carmody told the court. Sucevich was shot twice by Cole, and it was thought at first that he would die. He rallied, but still has a hole in his skull, where the bullet from Cole's gun entered. Cole was convicted of assault with intent to kill. An accomplice of Cole escaped.

Find No "Dope" Hidden in Auto

The owner of the stolen car captured by immigration officials after an exciting race near Silver Lake Thursday afternoon has been located in Vancouver, B. C., and will arrive in Seattle Monday to claim his property.

Customs officials state that a thoro search revealed no contraband or dutiable articles had been smuggled in from Canada, and express the opinion that with the return of the car to its owner, the three men captured with it will be turned over to Canadian authorities. Just what connection the woman and 5-year-old girl who accompanied the men have with the case is not yet known.

Embargo Is Only Local Strike Sign

Farther than the embargo against freight shipments to Chicago, Buffalo and Kansas City reported Saturday morning, no effects of the railroad employes' strike in the East had been felt at Seattle Saturday noon, said railway officials.

Postmaster Edgar Battle and Postoffice Inspector John S. Swensen declared that no interference with the mail service had reached their offices. They expressed the opinion that the mail trains would not be affected, because such an occurrence would make those responsible for the interference liable to prosecution by the government.

VANDERLIP ON WAY TO ORIENT

Party Sails for Japan on Kashima Maru

Frank A. Vanderlip, noted New York financier and publicist, and a party of prominent bankers, educators and business men, left Seattle Saturday morning on the Kashima Maru, for Japan.

The party is visiting Japan on the invitation of the imperial government and of a group of leading Japanese business men. The object of the tour is to foster more cordial relations between the United States and Japan, and to afford the American economists a better knowledge of the Far East.

The party will arrive in Japan April 25. The return trip will be made about May 15, by way of Hawaii and San Francisco.

In the party leaving today are the following Americans, some of whom are accompanied by their wives and children:

Frank A. Vanderlip, financier; Darwin P. Kingsley, president of the New York Life Insurance Co.; Dr. Jacob Gould Schurman, president of Cornell university; Seymour L. Cromwell, vice president of the New York Stock Exchange; Julian Street, writer; Henry W. Taft, New York lawyer and brother of the former president of the United States; Louis L. Clark, president of the American National Exchange bank, of New York; Lyman J. Gage, secretary of the treasury under President McKinley, and George Eastman, of the Eastman Kodak Co.

FINANCIER IS FOR SHOP COMMITTEE

Vanderlip Praises System in Address

Frank A. Vanderlip, financier, who rose from humble station to one of the world's financial leaders, urged Seattle employers to take a broad view in dealing with employes, when he addressed 450 Chamber of Commerce men at Masonic club Friday night.

"Labor is not satisfied today. That is the reason labor's efficiency is only 60 per cent of what it should be and what it was," said the New York banker.

"Capital blames this inefficiency on labor, which replies that it has been treated like a commodity, bartered about like cotton or wool, that it has been an inanimate cog in a machine, and that it was not given a square deal under the piece price system. There is truth in both sides, but this lack of contact means that America cannot pick up the world leadership which lay at her feet Armistice day.

"I think that the shop committee plan is one of the hopeful signs of the new relationship. In Seattle today I investigated one in operation here and I like its aims and its results. We do not want a plan that bears only troubles; we want one which will make for daily communication between employer and employe. Capital alone is a dead thing; it must have labor helping."

Vanderlip told his audience he is not in favor of the bonus for soldiers and sailors for it will add two billions more credit to be absorbed by the already inflated currency system, which has made a dollar worth 40 cents today, cut life insurance policies to half their pre-war value and taken money from the savings of every person in America.

MINERS BACK M'FADDEN BILL

Vanderlip Opposes It—Delegates Go to Tacoma

Delegates to the International Mining convention left for Tacoma Saturday morning to inspect the smelter there. Last business session was held in the Arena Friday afternoon, when the convention went on record as favoring the McFadden bill for excise of $10 an ounce on all gold manufactured and payment of $10 an ounce bonus on all gold mined. Frank A. Vanderlip, New York financier, opposed the McFadden bill. He said it would mean increased inflation. Gov. Boyle, of Nevada, fathered the measure.

HOUSE PASSES PEACE BY VOTE

Bitter Fight on Resolution Looms in Senate

BY L. C. MARTIN

WASHINGTON, April 10.—Senate leaders today were prepared for a long and bitter struggle over the peace resolution passed late yesterday by the house.

Senator Lodge, chairman of the foreign relations committee, said he would call the committee to consider the measure as early next week as convenient.

Lodge, and other republican leaders expect the resolution to pass eventually by a close vote.

But the margin is so narrow that a change of one or two in the next few weeks might spell defeat for the measure.

Some of the so-called "mild reservationists" have begun a series of political maneuvers, which, if successful, will result in the "mild reservationists" voting against the resolution.

As the democrats will oppose it almost solidly, according to Senator Hitchcock and other administration leaders, the "mild reservationists" control the situation.

Arguments on the constitutional question of the right of congress to pass such legislation promise to consume many days and more time probably will be used in going over all the old treaty ground. Opponents of the League of Nations plan to use the French intervention in the Ruhr as an example of alleged failure of the League of Nations to function in time of emergency.

ADOPT UNIFORM NEWS STAND

Here's the new metal news stand, which Hans Evers, business agent of the Newsboys' union, says will displace all the wooden boxes in Seattle during the next few weeks. Joe Barenc, county-city building news merchant, is standing by the stand, which has a compartment for "returns" and an adjustable top to be pulled down over the papers when it rains. The city council approved the new uniform stand at the request of union officials. —Cress-Dale Photo.

Status of the New York Stock Exchange

NEW YORK, April 10.—The stock market was generally lower at the opening today. United States Steel opened off ⅛ at 105⅝. Other prices were: Tobacco at 75⅝, off ⅝; American Locomotive at 107, unchanged; Republic Iron and Steel at 113⅜, off ⅛; Corn Products at 99⅛, off ⅝; Pan-American Petroleum at 105½, up ⅛; Studebaker at 118, off 2⅝; Southern Pacific at 89½, off ⅛; Baldwin at 145, off 1⅜; Bethlehem Steel "B" at 99¾, off ⅜.

The market developed a steadier tone in the first half hour. Wall st. was inclined to look upon the money flurry as a temporary spasm occasioned by the week-end carry-over and some apprehension existed that the railroad strike might interfere with the credit supply. Marine issues showed a strong tendency.

The market closed strong.

United States Steel closed at 105¾, off ⅛; American Sugar at 137, up 1; Pan-American Petroleum at 106, up ⅛; United States Rubber at 113¼, off ¼; Sumatra at 95⅝, up ½; Pressed Steel Car at 110, up 4½; Studebaker at 110½, off ¼; Southern Pacific at 99, unchanged.

NEW PLAN FOR SALE OF BONDS

Pay Money on Delivery of Paper

Decision to recommend to the city council the repeal of the resolution under which subscriptions for the Skagit light and power bonds are being received by the city comptroller was reached by Mayor Caldwell and the council finance committee Friday afternoon.

At the same time a resolution was passed reducing the amount of the bonds to $600,000 and providing for their sale "over-the-counter," without the necessity of making cash deposits several weeks before delivery.

The bonds will be dated June 1 and bear interest at six per cent, payable semi-annually.

The present subscription plan is regarded as a failure by city officials. Only $12,800 worth of the bonds were sold. City finance officers attribute this to the fact that people objected to making the necessary cash payment of 10 per cent several weeks before the delivery of the bonds. This feature is eliminated in the new bond sale program, city officials point out.

Unfilled Tonnage Report Announced

NEW YORK, April 10.—Unfilled tonnage of the United States Steel corporation on March 31, was 9,892,075 against 9,502,081 on February 27, it was announced today. This was an increase of 289,994.

Chicago Grain Market

CHICAGO, April 10.—Grain futures on the Chicago Board of Trade closed strong today after a decline from the opening figures.

In the later trading buyers were active, influenced by reports from seaboard points that wheat and rye were being bought in large quantities and at higher prices for export shipments.

The weather forecast for next week, predicting snow, rain and cool weather over the grain belt, where seeding and planting have been greatly retarded, caused active bidding on both corn and oats futures.

Receipts were light, due to the railroad strikes thruout the country.

Provisions closed generally higher.

May corn, up 1¼c on opening at $1.68, closed down ⅝c; July corn, up ¼c on opening at $1.60⅛, gained ⅝c in the later trading; September corn, up ⅛c on the opening quotations of $1.56¼, lost ½c in later trading.

May oats, up ⅛c on opening at 94⅜c, gained 1c in the later trading; July oats, up ⅛c on opening at 86⅛c, closed nominal.

SAYS SPRINKLER KEPT RUNNING

Dr. Willis H. Corson, who performed the autopsy at Bonney-Watson's, said death was due to burning. Miss Crowe's right leg was gone, he said, also the left foot and the fingers. Part of the hair was burned off and the body blackened.

A. A. Wright, night clerk, testified that there were fire extinguishers on each floor of the hotel and an automatic sprinkler in the
