Gave a Poverty Party.

In place of the regular business meeting, the Eastern High School Camera Club entertained its friends Friday evening at a "poverty party" at the home of Miss C. A. After playing a number of games the club adjourned to the dining room, which was appropriately decorated, and partook of a "poverty" supper. A flashlight group of the party was then taken, and at a late hour the guests departed for their homes. Among those present were Mr. and Mrs. Van Doren, Misses Inez Cadel, Mansie Cameron, Matilda Chester, Hope Durfee, Grace Fiegenbaum, Virginia Fitzhugh, Laura Glancy, Margaret Johnson, Irma Kane, Josephine Morrison, Pearle Pettigrew, Ethel Raymond, Bessie Weide, May Van Doren and C. THE NINTH CONGRESS

Daughters of American Revolution to Convene This Evening.

MATTERS OF INTEREST FOR DISCUSSION

List of Officers, Honorary Officers and the Committees.

DELEGATES ALREADY HERE

The Daughters of the American Revolution will convene in their ninth continental congress this evening at the Grand Opera House, open to all. The president general will preside and will deliver her annual address of welcome, which will be responded to by Mrs. Robert Emory Park, state regent of Georgia. Following this will come the reports of state regents.

This will be the largest congress ever held. It is expected that about 1,500 delegates will be in attendance. The floor of the Opera House will be kept free for the delegates, and the alternates will be seated in the balcony. After the alternates are provided for, the remaining seats will be given to the visitors and guests. Those holding balcony badges will enter from the 15th street side; those who go upon the floor will enter from the Pennsylvania avenue side.

There will be no election of officers this year, but there will be plenty of interest, for many matters will come up for discussion. The case of Warren Chapter, D. A. R., of Monmouth, Ill., will command a good share of attention. Its status has been a thorn in the flesh of two or three congresses, and a good many members believe that there has been a good deal of unfairness exhibited, perhaps unintentionally, but so evident as to make the conditions unbearable. The status of the American Magazine, the official organ of the body, will also be discussed. The congress, it is said, does not give the magazine the support that the publication merits. Just what course the matter will take is entirely problematical.

The lineage books will also come in for discussion. The volumes now number ten, but are about thirty short of bringing the lineage of the order up to date. The work is retarded in many ways, and those who have it in charge desire to have more assistance and bring it up more rapidly. Historically speaking, it is considered a valuable work.

The great question which will come before this congress will be that of the Continental Hall. The Daughters are determined to have a hall of their own, where they can have their headquarters, a safe place for filing all their historical data, their revolutionary relics and for holding their congresses.

ARREST OF WILLIAM BROWER.

His Former Theft of Horse Which Chewed Tobacco.

Major Sylvester has received information from the authorities at Chambersburg, Pa., of the arrest on a charge of horse stealing of William Brower, an elderly man who was arrested in this city several years ago. Brower was taken into custody near Hancock, Md., last week. In 1894 he was arrested here by Detectives Horne and Boyd for the Pennsylvania authorities. At that time he was convicted of horse stealing and given a penitentiary sentence.

The case attracted considerable attention at the time of the old man's arrest here, because the horse that he was charged with having stolen chewed tobacco. When the officers overhauled Brower he seemed very much surprised at the idea of being suspected of such an offense.

"I don't like to suspect you," said one of the officers, "but your conduct is suspicious and I'll have to hold you."

The prisoner told them he could prove that he owned the animal, and that it was the only pet he owned. He made the attempt to prove his claim by producing a plug of tobacco and giving it to the animal. Unfortunately for him, the officers had been advised that the animal had the tobacco habit.

It is believed Brower was on his way to this city last week when he was overtaken at Hancock.

VERY FEW PEOPLE

ARE FREE FROM SOME FORM OF INDIGESTION.

Very few people are free from some form of indigestion, but scarcely two will have the same symptoms.

Some suffer most directly after eating, bloating from gas in stomach and bowels, others have heartburn or sour risings, still others have palpitation of heart, headaches, sleeplessness, pains in chest and under shoulder blades, some have extreme nervousness, as in nervous dyspepsia.

But whatever the symptoms may be, the cause in all cases of indigestion is the same—that is, the stomach for some reason fails to properly and promptly digest what is eaten.

This is the whole story of stomach troubles in a nut shell. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both by supplying those natural digestives which every weak stomach lacks, owing to the failure of the peptic glands in the stomach to secrete sufficient acid and pepsin to thoroughly digest and assimilate the food eaten.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs or other wholesome food, and this claim has been proven by actual experiment which any one can perform for himself in the following manner: Cut hard-boiled egg into very small pieces, as it would be if masticated, place the egg and two or three of the tablets in a bottle or jar containing warm water heated to 98 degrees (the temperature of the body) and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in the healthy stomach of a hungry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach, and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit if its digestion is weak, and the thousands of cures accomplished by their regular daily use are easily explained, when it is understood that they are composed of vegetable essences, aseptic pepsin, diastase and Golden Seal, which mingle with the food and digest it thoroughly, giving the overworked stomach a chance to recuperate.

Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intestines.

When enough food is eaten and promptly digested there will be no constipation, nor, in fact, will there be disease of any kind, because good digestion means good health in every organ.

The merit and success of Stuart's Dyspepsia Tablets are world wide, and they are sold at the moderate price of 50 cents for full-sized package in every drug store in the United States and Canada, as well as in Europe.

For the information of those interested a little book will be mailed free by addressing F. A. Stuart Co., Marshall, Mich., giving briefly the symptoms of the various forms of stomach weakness, causes and cure. fe19&22-2t

FAIR TONIGHT.

Tuesday Increasing Cloudiness and Warmer.

Forecast till 8 p.m. Tuesday—For the District of Columbia, Delaware, Maryland and Virginia, fair tonight. Tuesday increasing cloudiness and warmer; light to fresh westerly shifting to southerly winds.

Weather conditions and general forecast—The severe cold that began in the middle and west gulf states Friday night and in the south Atlantic states and Florida Saturday night has moderated to a marked degree over the west gulf region, where the temperature this morning is above freezing on the Texas coast. On the middle gulf coast there has been a rise in temperature of eight to twelve degrees, although the temperature reached the freezing point at New Orleans this morning. Over northern Florida the minimum temperature at Jacksonville, 26 degrees, is eight degrees higher than the minimum reported Sunday morning, and at Tampa the minimum this morning, thirty degrees, is two degrees higher than the Sunday minimum. Over the southern Florida peninsula the temperature has fallen four degrees since Sunday morning, with a minimum of thirty-two degrees at Jupiter and fifty-two degrees at Key West.

During the next thirty-six hours the temperature will moderate rapidly throughout the southern states, and Tuesday will be warmer throughout the Ohio valley and the middle and north Atlantic states.

A disturbance which has moved rapidly southeastward over the Rocky mountain districts to the Panhandle of Texas will cause general cloudiness and probably rain in the southwestern states and the lower Mississippi valley.

On the north Atlantic coast the winds will diminish in force from the west. On the middle Atlantic coast the winds will become light and variable. Along the south Atlantic coast the winds will be variable.

The following heavy precipitation (in inches) has been reported during the twenty-four hours ending 8 a.m. Sunday: Portland, Me., 1.30; Nantucket, 1.60.
