

ARREST COOPER IN NEW MEXICO

To Be Charged With Complicity in Woodcock Murder

SAN FRANCISCO, Jan. 22.—Warren G. Cooper, mining engineer, is under arrest at Carlsbad, N. M., according to a statement issued by Captain of Detectives Duncan Matheson here today. Cooper will be charged with complicity in the alleged murder of Edward Kelly, who was shot and killed by Edgar Woodcock, Matheson said.

Cooper was with Woodcock the night of the shooting, according to the police, and was given the revolver after the slaying. He was wanted as a material witness at the trial of Woodcock, but was not located by the local officers.

Captain Matheson said detectives would leave today to bring Cooper back to this city, and that he would be called before the grand jury which is investigating the Woodcock acquittal, probably at its next session Monday night.

The slaying of Kelly has gained wide notoriety as the "flirt murder" case.

Gov. Stephens, California, States His Attitude

SACRAMENTO, Cal., Jan. 22.—Refusal to grant the Oriental exclusion league an interview with him was voiced by Governor William D. Stephens in a lengthy statement issued yesterday afternoon, addressed to State Senator J. M. Inman.

Stephens declared he had on numerous occasions clearly stated his attitude on the Japanese problem in California and that he could not see anything to be gained in having the committee call on him.

"You make the suggestion, in the spirit of a threat, that if a special session of the legislature is not called you will submit initiative proposals to the people," Stephens stated. "Frankly, and regardless of the threat, this suggestion appeals to me as worthy of earnest consideration."

"If initiative measures are so framed that rights of citizens and desirable aliens are not infringed upon, as may so easily be done in attempting to create laws of peculiar design, then such a course may possibly be the best one to pursue."

Stephens declared he would not "permit the clamor that is being raised against me to swerve me from my solemn duty."

JAPANESE GET OREGON LAND

KLAMATH FALLS, Ore., Jan. 22.—Chinese and Japanese from California recently acquired 10,000 acres of marsh land south of Klamath Falls. This land—heretofore considered good for nothing except as a hatching place for ducks and geese—will be used for gardening by the Orientals.

The owners have incorporated under the name of the California Vegetable Growers' association and will raise onions and celery principally.

A deal is now on for the sale of another 10,000-acre tract of land to E. T. Arima, a prominent Japanese. He would resell it to Japanese families in small lots.

Miss DeKay's 'Chum' Silent Puts New Mystery in Case

Miss Didi Salter

Three Separate Angles Bob Up in Strange Disappearance

CHICAGO, Jan. 22.—Mile Didi Salter, "mysterious" chum of Jeanne Anna DeKay, missing from Hull House since December 30, has become almost as much of a mystery as the DeKay girl herself. John Walter DeKay, brother of the missing girl, has described Mile Salter as a "fine, simple, straight-forward young woman." He became very friendly with her on shipboard, bound for America.

Since the case has become a nation-wide mystery, the "chum" has kept under cover. That Miss DeKay was in possession of secrets of international intrigue has been intimated. It is known that the state department at Washington is working on the disappearance problem. Miss DeKay's dropping out of sight furnished the first mystery. A cablegram from her father, in Lucerne, Switzerland, in which he said: "Received telegram. Very anxious. Jeanne confined in Rumanian lady. Always send wires Lucerne. Love." added another touch. And now Mile Salter's reign of silence makes the case more puzzling than ever.
