Don't Blame "Spring Fever" For That "Down-and-out" Feeling

Your Blood Needs a Thorough Cleaning Just Now.

As Spring approaches the impurities that have been accumulating in the system throughout the winter begin to clog up the circulation, causing a general weakness and debilitated condition that is generally known as "Spring fever."

The first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Children just at this season are peevish and irritable, and become puny and listless.

This whole condition is but the result of impurities in the blood that have been accumulating and make

themselves felt more distinctly with the change of seasons. They show that nature needs assistance in giving the system a general housecleaning.

Everybody just now needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse it of impurities. It is good for the children, for it gives them new strength and puts their system in condition so they can more easily resist the many ailments so prevalent in summer. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

HOW PRESIDENT HAS CHANGED IN 15 MONTHS

1918

President Wilson was the picture of health when he arrived in Paris just before Christmas, 1918, for the peace conference. His cheeks were full and firm, and his skin had a ruddy glow. Paris went into raptures over his smile. His eyes were clear and bright, testifying to almost perfect physical condition. This photograph was taken in Paris late in December, 1918.

1919

At the peace conference Wilson saw more people and worked harder and longer than any other statesman. Upon his return last summer the treaty fight opened in Washington, with its additional strain, and last fall, the far from well, he went on the Western speaking tour, which ended abruptly in his complete breakdown. This photograph was taken in Kansas City in September, 1919.

1920

Now President Wilson is recovering slowly, but it requires only a comparison of these photographs to show that he has suffered intensely, and is still a long way from "fit." His face is pinched and thin; old lines have deepened; new lines have appeared; his expression is strained. This photograph, the latest of the president, was taken in Washington in March, 1920.

CITIES NOT SAFE FOR GIRLS NOW

So Says Preacher From Pierce County

"The Missing Girl" was the subject of an address by Mrs. Blanche Mason, superintendent of the women's protective division of police, at the convention of the Pacific Coast Rescue and Protective society in Pilgrim Congregational church Wednesday.

The conference reopened at 10:30 a. m. with a discussion of "Delinquency Problems" by Rev. R. B. Hassell, Snohomish county probation officer. "Cities at the present time are unsafe places for young girls," Rev. S. S. Heath of Pierce county told the convention Tuesday. "There has been no time since the Civil War when the nation was so disturbed and crime and immorality so prevalent," he said.

Miss Anna Murphy and Mrs. R. E. Harbison of Portland were scheduled for afternoon addresses. The convention will close Wednesday night after hearing from Miss Elizabeth Murlless of the state bureau of protection and Dr. Howard T. Woolston of the University on "Social Hygiene."

The city council was to meet today to consider the salary increase budget which has split the body into two factions.

GIRL OF 16 MARRIED WITHOUT KNOWING IT SHE INFORMS JUDGE

BOSTON, Mass., March 31.—Gladys M. Brown seeks an annulment of her marriage to Grady M. Raper on the ground that she did not know she was being married, but thought she was merely a witness to the marriage of another couple.

She told Judge Thayer that after she left the office of the officiating officer in Lynn she learned she had been thru a marriage ceremony, but she had nothing more to do with Raper.

She was 16 years old then. The ceremony was performed in December, 1917. Just after the ceremony Raper left for France with the American forces. Judge Thayer said he was not sure that this 16-year-old girl went thru a marriage ceremony without knowing what it meant, and in reply to the argument of counsel stated that minority was no ground for annulment.

The judge asked if the official who performed the ceremony asked questions, and she said he did ask questions of Raper, but not of her. "Did he ask you if your name was Gladys Brown?" inquired the judge.

"Yes."

"He asked you if you were the bride, didn't he?"

THOUGHT ALL THE TIME IT WAS THE OTHER GIRL

"No, he didn't. I was thinking all the time it was the other girl."

The girl did not know where in Lynn she went. She said she thought her chum was to marry Raper, and the judge asked: "If she wanted to marry him, why did she substitute you?"

"Well, I was with this fellow and she was with another," she replied.

"Can you get a deposition from the other girl that you were a substitute?" the judge asked, but no reply was made.

The judge said to counsel: "I wish you would get the officiating person and let us see what he knows about it. Before I extend a helping hand to this girl I want to be sure that her was made."

Gunman Is Facing Assault Charges

First degree assault was charged Wednesday against George Thomas, following his alleged attempt Tuesday afternoon to "shoot up" W. H. Fleming and Frank Dildine in their apartment in the St. George, 14th ave. and Yeiser way. Failure of three cartridges to explode was thought to have saved their lives. Police say the trouble started over a woman.

and it wasn't his crime

Justice sometimes goes wrong. Men are often punished for crimes they do not commit. And when we thoughtlessly take purgatives and cathartics to relieve stagnant bowels, we are committing a similar injustice.

When the system is unable to remove food waste at regular intervals, it is the food waste, and not the system, that needs correction.

Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system. By this entirely new principle Nujol will keep the poisonous waste moving out of the body.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in bottles only, bearing the Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."
