

NEW HAVEN WINS PENNANT

BONE CLINCHES VICTORIOUS GOAL AT MERIDEN.

Game Was Fast and Exciting but Few Goals Were Made—Crowd Were Kept on Tip-toe of Excitement Until the End.

The New Haven polo team won the championship of the National polo league last night by defeating Meriden in their own rink by the score of 3 to 2. A large crowd traveled from New Haven to see the game, and did not fail to make their presence known before and after the contest. The game was a close and exciting one, and was peculiar in one instance and that being that the score stood at the end of the first period two goals against Meriden, no goals having been made. The second period was fast, and both teams netted a couple of goals each. The last period was stubbornly fought by both teams and it was not until time had nearly expired that Bone caught the ball behind the Meriden cage, banged it against the side at a forty-five degree angle, followed it up like a streak of lightning and before any one could cover him or Burgess knew what he was at had the ball in the netting. The few remaining minutes of play was of the most exciting nature and Meriden tried hard to equalize but all in vain. The game sounded time the crowd cheered and Bone twirled his stick in the air and all was over. The team was the recipient of all round congratulations on the train, and William Aultoff, the popular manager of the team, smiled as he never smiled before. Three times these cheers were given for Aultoff, Canavan, Whiting, Lattions, Bone, Warner and Whipple as the train steamed into the station.

	New Haven	Meriden
First Rush	Bone	Warner
Second Rush	Warner	Center
Center	Canavan	Whipple
Half-Back	Whipple	Goal
Goal	Lattions	
First period no goals scored.		
New Haven	15:20	
New Haven	3:20	
Meriden	5:30	
Meriden	2:35	
New Haven	16:50	
New Haven	16:00	

Goals—New Haven 3, Meriden 2. Fouls—Bone, Warner, Hayes, Russell, Stops—Burgess 17, Lattions 14, Referee, Lahy; timer, Trager.

TODAY'S GAME.

Hartford will play the last championship game of the season to-night and the only stake at issue is whether they will be able to gain a victory in New Haven this season. Get your seats early if you want to see the game.

WALLINGFORD.

Joseph Hayden and Edward Simmons were arrested yesterday by Patrolman Daniel O'Reilly and this morning at 9 o'clock they will be brought before the borough court to answer to the charge of theft of two blankets from the wagon of a Middletown man, named Rogers, on North Colony street several weeks ago.

A son of William Prince, who lives on the east side of the town, got a bad fall from his bicycle on Colony street Wednesday night. The forks of the wheel broke and Prince was thrown to the ground, breaking off four of his teeth and otherwise bruising himself.

Patrolman Kelly arrested Frank Gibbons yesterday on an old warrant charging him with assault and breach of the peace on George Stevens last October. Gibbons was kept in town at the time of the assault, but has been around here of late. The case will come up this morning.

The basketball game this evening between Company K's team and Thompsonville in the armory will be called at 8:30.

Engineer Thomas C. Perkins is ill with an attack of the grip at his home in Hartford.

Mail Carrier Levi Hull is a victim of the grip.

Mrs. R. M. Ives is visiting friends in New Bedford, Mass.

Looks as though old Horace Johnson had, after many years of bad guessing, finally made a hit and scored a point on the weather question.

Assistant Surgeon John T. Kennedy of this town has received notice of his assignment for duty on the Independent, United States recruiting ship, at Mare Island.

SMALLPOX SUSPECTED.

Yale Student Returns Ill to His Home in Middletown.

Middletown, March 15.—Roland Bailey, Yale 1900, is ill at the home of his father here, and the attending physician fears that the case may be smallpox.

At present, however, he says the patient's condition is such that he is unable to determine the exact nature of the disease, and while symptoms of smallpox exist, it is possible that the case may prove to be nothing more than a serious attack of measles, the first symptoms of which are much like those noticed in smallpox.

Bailey is a classmate of Galus W. Perkins, the young man who was attacked by smallpox, or varioloid, at Yale, nearly two weeks ago, and he was for some time exposed to the disease. This increases the fear of the physician and also the young man's friends that the case may be of more serious form.

ILL WITH MEMBRANOUS CROUP.

The friends of Master Mechanic Sherman of the fire department are sympathizing with the parents in the illness of his six-year-old son. The child is ill with a severe attack of membranous croup. Dr. Sanford is attending him and yesterday a consultation on the case was held by Dr. Sanford, Dr. Marvin Smith and Dr. Luby. Last evening the only way that the little fellow could breathe was by means of a silver tube inserted in his throat. The many friends of the family hope for the boy's recovery.

THE ART EXHIBITION OPENS

BEAUTIFUL DISPLAY OF PICTURES IN WARNER HALL.

Over Four Hundred Reproductions of Famous Masterpieces Shown—Movement of Woman's School Association to Place Pictures in the Schools—Proceeds of Exhibition to be Used for the Purpose.

Quite a number of art lovers braved the storm last evening to attend the opening of the "Art exhibition" at Warner hall. They were well repaid for their trouble, for they were enabled to examine one of the choicest collections of pictures ever shown publicly in New Haven at their leisure, and without experiencing any of the discomforts of crowding.

The purpose of the exhibition, as has already been explained, is to place pictures in the public schools. The idea originated with the art committee of the Woman's School Association, which is composed of the following ladies: Mrs. J. C. Schwab, Mrs. William C. Sturges, Mrs. H. W. Farnam, Mrs. G. T. Ladd, Miss Teresina Peck and Miss M. T. Dana. In a circular explanatory of the project which has been issued they state: "Many of our school rooms are entirely without pictures or other works of art. In these rooms children spend five hours a day. May we not make these rooms more beautiful, and attractive by placing good pictures on the walls?" The circular, through the medium of the school children, has gone into thousands of homes and already a large number of tickets have been disposed of.

Another object of the exhibition, none the less important, is to familiarize teachers, pupils, and the general public with some of the great art works to suggest subjects of high rank that are considered suitable for school room walls and to give opportunity for comparison and wise selection for this purpose. In order that pupils may understand the pictures exhibited and associate them with their class room studies, committees from each school will be present each evening, having been appointed by Superintendent Kendall. From the high school is composed of Miss Sheridan, Principal Beede and Mr. Hackett. Mr. Lowell of New York, who has trained himself especially for this work, has been engaged to furnish any information about the exhibit that cannot be obtained from the committees or the catalogue, and will do much to insure the success of the exhibition.

The exhibition itself contains about four hundred pictures, all reproductions of the great masterpieces of art in foreign galleries, famous buildings and beautiful scenery in both Europe and America. They are the property of the Helman-Taylor Art company of New York city, and were selected from lists prepared by Walter S. Goodenough, director of drawing, Brooklyn; Katherine E. Shattuck, superintendent of normal classes, Pratt Institute, Brooklyn; and Elizabeth Herrick, director of art education, schools of Ethical culture and of Saint Agatha, New York—all favorably known as art teachers of great experience. All the pictures are carbon photographs or prints, so beautifully done that it is hard to believe that some are not actual paintings.

The hall last evening was given from 8 to 10, during which hours selections were rendered by a concealed orchestra. The exhibition will be continued to-night and on Saturday, Monday and Tuesday evenings. The proceeds of the sale of tickets will be devoted to the purchase of pictures for the various schools of the city.

A STATEMENT BY MRS. DAVIS.

She Hails Her Husband's Arrest as a Deliverance.

Frederick M. Davis, the confessed burglar, has been unable to secure bonds and remains in the county jail. His case will come up in the city court to-morrow, the date to which it was continued. The following signed statement is by Mrs. Davis, the wife of the prisoner, and is self-explanatory.

In the reports of the F. M. Davis matter the wording of the reports would convey the inference that Davis planned his expeditions with his wife. The reverse is the fact. Mrs. Davis says that she never knew when he was concerned in these undertakings until after they were accomplished, and then by some word of bragado, she learned of them. So far from any attempt to shield Davis, she readily directed the officers to such booty as she knew, and later when Davis surrendered his keys many things were revealed of which she had no knowledge. While having some knowledge of his depredations, she was constantly terrified by him. No later than Sunday he threatened her with a revolver. His threats have also extended to her mother. Therefore the present situation is hailed by them as a deliverance. Mrs. Davis wishes it clearly understood that she has received no benefit from these robberies, having supplied her own wardrobe from the proceeds of her needle work and otherwise being dependent upon her parents for her personal support. What Davis has done with the proceeds of his plunder is a mystery yet to be solved.

They desire it understood that there will be nothing done in any way by them to shield him from the consequences of his acts. (Signed)

MRS. IDA L. DAVIS.

ATTACHMENTS MADE YESTERDAY.

An attachment for \$150 was placed on the store of C. F. Hine, at 1322 State street, yesterday afternoon in a suit brought by the Merwin Provision company to recover for goods furnished to Mr. Hine. The attachment was placed by Deputy Sheriff Hixson, who served a keeper in charge of the store. J. D. Dorelli, Jr., is attorney for the plaintiff and brought the suit.

Another attachment made yesterday was for one \$300 in the suit of Hiram Jacobs of East Haven against Thomas Walpole and Patrick McCartin of this city. Property on Pine street belonging to Walpole was attached, as was also property on Clay street belonging to McCartin.

Jewell Gompertz of this city has gone to Washington to take a course of study in the dental department of the Columbian university.

Thomas F. Griffin, 809 State street, writes that William Powers, who was reported shot at Manila, was not shot, but that he is suffering from a poisoned leg in the hospital there. He was poisoned by jungle plants.

TO CURE A COLD QUICKLY.

Take Crown La Grippe Tablets, the great cold cure, George D. Farrow, 644 Chapel street, City Drug store. If

Financial.

THE STOCK MARKET.

Interest in Sugar, Third Avenue and Burlington.

New York, March 15.—The principal interest in today's stock market was centered in Sugar, Third Avenue and Burlington. The rest of the market gave evidence of some disappointment over the non-effect of the currency and refunding law. Prices were sustained for a time by the strength of the three stocks mentioned and some others less prominent. Burlington was most consistently strong and gave evidence of manipulation said to be by a pool formed to advance the stock. Its extreme rise was 2 3/8. It had the most effect on the other grangers but served as a tonic on the whole of the railroad list. The iron and steel stocks, as a group, were inclined to firmness on the confidence expressed by trade publications in the maintenance of prices. Third Avenue was feverish and active all day. Its strength was attributed by many to operations against a large outstanding short interest and the stock advanced at one time above 70 compared with 59 on a drive at the opening. The violent fluctuations in the price reflected the doubtful and conflicting opinions of speculators in the stock. It closed with a net gain of 2 5/8. Sugar was not so erratic and did not move over so wide a range, but its extreme rise of 1 1/2, after an opening decline, gave way to reaction in the late dealings and it closed practically unchanged. There was a decided inclination in the late transactions to throw out stocks by tired holders and the closing was quite active and weak, the earlier gains, except in a few cases, being wiped out. Reading first preferred fell sharply nearly two points on the reports by trade authorities of softness in the anthracite market. Peoples Gas was also conspicuous in the late break.

The general expectation of a poor bank statement was the underlying means of selling. The rate for call loans was, however, rather easier than yesterday, under the influence of dividend disbursements. The prevailing rate was 5 per cent. and loans were made at 4 per cent. New York exchange at Chicago hardened sharply to one cent discount, and there was a similar movement at other points. But the sub-treasury made another large draft on the cash resource of the banks, bringing its total withdrawals for the week thus far up to \$4,370,000. As the surplus last Saturday was below \$5,000,000 and the currency movement is generally believed to have been in favor of the interior since then, while the loans of the banks have evidently been further expended, it is difficult to believe that anything can be saved in the way of a surplus for the banks this week. The report of a deficit is bound to have an unfavorable sentimental effect on prices, however soon relief may be forthcoming from new bank circulation or the disbursement of the government bond premiums. London sold stocks in this market, apparently on account of the conditions of the money market there which are called stringent, and which the statement of the Bank of England shows no prospects of improving in the immediate future.

Business in bonds continued on a large scale, but prices yielded in some portions of the list. Total sales, par value, \$1,820,000. United States two and new fours declined 1-2 and the old fours and five 1-4 in the bid price.
