THE LINE OF MARCH TO BE DRAPED IN BLACK

Preparations for the Last Sad Rites Over the Remains of the Dead Ex-President.

INDIANAPOLIS, March 15.—Cold, disagreeable weather is forecasted for Harrison's burial. Snow fell all night and the mercury has fallen many degrees. Preparations for the lying in state of the general's remains, and for the funeral Sunday, were completed this morning.

Courts have adjourned and business houses are closed for the afternoon.

In every public school of the city, the first half hour today was devoted by the teachers to a review of Harrison's life and work.

The Seventieth Indiana Regiment Volunteer association, of which Harrison was president, met this morning and took action on his death.

The committee on decorations asks that all of the line of march, over which the militia of the state will escort the body from the residence to the state house, be draped in black.

The Columbia club, the leading Republican organization, meets tonight when eulogies will be delivered by Gen. Lew Wallace and others.

All of members of Harrison's cabinet are expected at the funeral except Proctor, who is now in Cuba. Telegrams have been received from the remaining members.

Burial will be private.

INDIANAPOLIS, March 15.—The body of ex-President Harrison will lie in state at the capitol Saturday from 11 a. m. till 10 p. m. The funeral services will take place at the First Presbyterian church at 2 o'clock Sunday afternoon as previously announced, and will be conducted by the Rev. L. M. Haines.

President McKinley and several of the cabinet will attend. Gov. Yates, of Illinois, will be present with his staff. Governors of other nearby states have been invited by Governor Durbin. Members of Gen. Harrison's cabinet will act as honorary pallbearers.

Arrangements for the funeral were made yesterday at a meeting of representatives of the family, the state officers and prominent citizens. The various mercantile and social organizations have adopted resolutions and formed plans to assist in the funeral services. The county offices will not be open tomorrow. The circuit courts all over Indiana have been requested to close on Saturday. Telegrams of condolence have been received from nearly all the prominent officials at Washington, former associates of President Harrison, and former political opponents. From abroad came messages sent by friends in the diplomatic service.

The state casket is of red cedar, with an air-tight copper lining, covered with a silk lining. It is simply decorated with hand-carved mouldings at the corners. The top is plain and bears only an oxidized plate on which is engraved: "Benjamin Harrison, 1833-1901." The covering is black broadcloth, and the handles are oxidized. The casket weighs 300 pounds. In the air-tight vault it will rest in a red cedar box.

After the body was placed in the casket today, it was removed from the death chamber to the double parlors, where it will remain until tomorrow morning, when it will be taken to the capitol, being returned that night. The hearse will be covered with an American flag, and drawn by four black horses, at whose bridles will be fastened black rosettes, from which hang long streamers.

The vault is being constructed at Crown hill. The body will lie on the right side of that of Mrs. Harrison, in the family lot. The location is at the foot of a green knoll, and is surrounded by shade trees. Nearby are the graves of Thos. A. Hendricks, Wm. H. English and Oliver P. Morton. The monument, which was selected some time ago by Gen. Harrison, is a solid granite pillar 10 feet high and 6 feet square. The tomb bears only the word: "Harrison."

Troops under arms will furnish a military escort, and act as a guard of honor at the casket while the body lies in state at the capitol.

WASHINGTON, D. C., March 15.—President McKinley, Mrs. McKinley, Dr. Rixey, and the president's secretary, departed at 8 o'clock last night for the West. Mrs. McKinley will not go to Indianapolis, but await the president at Canton, where he will return Sunday night.

The national capitol is in mourning for Gen. Harrison. Flags on public and private buildings are at half-mast. The law forbids the draping of public buildings in black, as was formerly the custom on the death of an ex-president. The flags on every United States building and at every arm post in the nation and the colonies will be at half-mast for 30 days.

There is much speculation as to the ex-president's will, but nothing definite can be known until after the funeral. Rumor says Russell Harrison and Mrs. McKee, children of the first wife are remembered with all property accumulated during the life and of which the general possessed during the time of estrangement growing out of his second marriage, while he reserved all since then for his second wife and daughter. Close friends believe that the estate will aggregate $400,000.

Hotel Burglary.

Burglars entered the apartments of Joseph Mosh, in the Michigan hotel, on James street, last night. A valise containing some valuable papers and articles of clothing were stolen. The room was entered with a pass key.

Mrs. Mary Flanigan Dead.

Mrs. Mary Flanigan, aged 30, died today at her residence, 3210 Madison street. She was the wife of N. M. Flanigan. The body is at Bonney & Stewart's undertaking parlors. Funeral services will be held tomorrow at the Church of the Immaculate Conception.

15 Truant Boys.

The police have 15 reports of missing boys, ranging between the ages of 8 and 12. The truant officer has been notified.

DAWSON RATES

Discussed Yesterday by the Steamboat Men.

The Alaska Steamship Association met yesterday afternoon and discussed business in general and especially through freight and passenger rates to Dawson. The trouble seems to be with the White Pass & Yukon Railway Co. This company is in a position to dictate to the steamship companies running from Seattle to Lynn canal. They can control the business from Skagway to Dawson. The rate decided upon for through tariff was $100 for a continuous passage and $165 for unlimited tickets. Freight will be from $100 to $200 per ton.

Gen. Manager Hawkins, of the White Pass road, will render his decision on the matter today. The whole through rate depends upon his decision.

DEFEATED!

PORTLAND, Or., March 15.—In the superior court of Vancouver ruling has been decided against the Columbia Valley Railroad Co., in its intervention proceeding of the Washington & Oregon Railroad Co. to condemn the right of the Portland & Puget Sound railroad, between Vancouver and Lewis river. There was no appearance made by the Portland & Puget Sound Co., and the defeat of the intervention left the Washington and Oregon people in undisputed possession of the field.

The jury awarded the Portland & Puget Sound Co. $11,000 for 17¼ miles of right-of-way.

There is strong evidence of the combination of transcontinental railroad interests in the harmonious adjustment of the struggles for a track on the north bank of the Columbia river.

GRAVE DANGER.

MILWAUKEE, Wis., March 15.—It is reported that the Goodrich steamer Indiana is ashore near Racine. The passengers and crew are in grave danger.

President in Ohio.

CANTON, O., March 15.—The president and Mrs. McKinley reached Canton at 11 o'clock this morning and were driven to the Barber residence.

IN THE COURTS.

Judge G. Meade Emory is hearing the case brought by M. B. Jackson, against John Graf, to recover $800 commission on property which he alleges he sold at the instance of the defendant.

The case of Jackson vs. Graf was non-suited this afternoon.

A jury in Judge Bell's department is hearing the case of T. G. Bird against L. C. Smith, brought to recover for certain fixtures alleged to have been appropriated by the defendant, upon his removal from his offices in the Pacific block in October 1899.

In September last the case was tried before a jury in Judge Benson's department, and a verdict was reached awarding the plaintiff $325 damages. This verdict was considered excessive by Judge Benson, and the judgment was set aside.

GIRLS' GLEE CLUB

Will Give Its First Entertainment at U. of W. Tonight.

The Girls' Glee Club of the University of Washington, will make its first appearance at Denny hall in the main university building, tonight. About 20 young women of the school comprise the membership of the club. For several weeks they have been practicing under the direction of Miss Katherine Glenn, of this city, and are now prepared to give one of the best concerts ever heard in Denny hall.

At the entertainment this evening the girls will be assisted by Miss Mildred Robertson and G. Magnus Schultz of Seattle, and Miss Sarah Andrews Thornton of Everett.

Prof. W. F. Murdoch's sextette of mandolins and guitars will appear on the program. The entertainment will end with a social dance.

NEW BANK.

Northwest Trust & Safe Deposit Will Add Savings Department.

A new bank will be started in Seattle early in April. The Northwest Trust & Safety Deposit Company is to extend its busines by opening a savings bank at its present offices at 94 Columbia street. It will be open Saturday evenings from 6 to 8 o'clock for the convenience of patrons in addition to the regular daily banking hours. E. Shorrock is president; John P. Hartman, vice-president and counsel; Alex. Myers, secretary and treasurer. The New York correspondent will be the National Bank of Commerce.

WASHINGTON, D. C., March 15.—L. F. Henry Washington was suffocated and several others injured in a fire which damaged the Merchants hotel early this morning.

LED AWAY FROM HOME

Nettie Barnett, a 15-Year Old Tacoma Girl Disappears.

D. R. Barnett, a resident of Tacoma, today solicited the aid of the local police to assist him in locating his daughter, Nettie Barnett, aged 15. She disappeared from her home on Wednesday, March 6, and has not been seen or heard from since. Mr. Barnett arrived in the city last night and has left a description of his daughter with the authorities. He has reasons to believe that she is hiding somewhere in Seattle.

In the report left with the police, Mr. Burnett states that he thinks that his daughter was enticed away from her home. He claims o have descriptions of two persons with whom he believes she left Tacoma.

When seen at headquarters today, Mr. Barnett told the following story regarding the mysterious disappearance of his daughter:

The Father's Story.

"My little girl Nellie, who left home suddenly a week ago last Wednesday, has never seen very much of the world, and was very easily led. She was but 15 years of age. I am certain that some older person enticed her away, or she would never have left. I was told by persons who know my daughter, that she was seen to take a boat for Seattle. That is the reason that led me to ask the chief of police of this city to assist in locating her. Nettie was a good girl, and I believe she would write and let us know where she is if some person has not influenced her not to do so.

Did Not Know Men.

"She was not very intimate with any boy or man that I know of. She had been at home for the past two months, and was very attentive to her household duties. She never made one statement that would lead us to believe that she was dissatisfied with her home and intended to leave. I am of the opinion that some man induced her to leave, upon the promise of money and fine clothes. My daughter always kept good company, and her friends believe that she is being detained somewhere against her will. It might be possible that she was kidnaped. The Tacoma police are working on the case and I believe I will yet be able to locate my daughter."

Police Will Search.

The police will today makea search of hotels and lodging houses in the tenderloin district, to ascertain if a girl answering the description of Barnett's daughter has been in this city. The Barnett girl is said to be pretty. Her father returned to Tacoma this afternoon.

HOSHOR TRIAL NEARING END

The case of the State vs. J. A. Hoshor, charged with grand larceny upon the complaint of H. G. Torrence, will go to the jury late this afternoon. This morning, at 10:30 o'clock, Prosecuting Attorney Fulton opened the state's case, reviewing the points brought out during the course of the trial.

Attorney Humphries will present the defendant's case this afternoon, and be followed by John Hart, who will close the case.

Yesterday afternoon A. S. Kerry, the well known lumberman, took the stand and related some of his experiences with H. G. Torrence, the complaining witness.

Mr. Kerry stated that while he was in Dawson in 1898, he purchased from Torrence a log raft for $1,000. When he went to take possession of the raft, he found a number of others who possessed bills of sale, issued by Torrence.

Hoshor's attorneys expect a speedy return of a favorable verdict.

CHAINED DOWN THE ENGINES

ANDERSON, Ind., March 15.—The engineers on the Chicago & Southeastern railroad have compelled the company to pay back wages to all the men along the line.

The Chicago & Southeastern is known as the "tramp railroad." The company was two months behind with the train men and section men, and the engineers put out their fires and chained the drivers to the track. They kept the engines this way for three days.

The company finally offered to settle with the engineers if they would return to work, but the committee said they would not turn a wheel until every man on the road was paid. The company had to accede, and the pay car made its trip yesterday afternoon. Traffic is again resumed.

IMPORTANT.

An important decision was rendered in the superior court today in the state ex rel. Fulton Market vs. Thomas Cann, justice of the peace, calling the defendant to show why a mandate should not be issued against him for charging $2 for filing suits through his court. The superior court held against the justices and hereafter only statutary charges can be made.

AT OLYMPIA.

OLYMPIA, March 15.—The legislature adjourned early this morning. The closing hours were exciting, as usual.

The house finished up its calendar about 9 o'clock last night. Then came the introduction of a set of humorous resolutions. They recited that Speaker Albertson had repeatedly throttled members and deprived posterity of many gems of oratory, and concluded by declaring Mr. Albertson removed from office. After a facetious debate, the resolutions were adopted, after which Mr. Albertson was presented with a fine gold watch and a set of resolutions eulogizing his services as speaker.

The bill to give to Seattle, for a boulevard, lands which may be uncovered by lowering of Lake Washington by the ship canal, was indefinitely postponed. It had passed the senate.

A sensation was created in the senate by a conflict between Senator Ruth, of Thurston county, and Representative Easterday, of Pierce county, as a result of the postponement of the bill to repeal the present libel law. Mr. Easterday, when he saw his bill was beaten, walked over to Senator Ruth, called him a liar and accused him of violating alleged promises to support the bill. On Ruth replying sharply, Easterday struck him in the face. Ruth was ill, and sitting down when assaulted. He tried to get up, but was held by friends. Adjournment was taken until evening, when Easterday appeared and apologized. His apology was accepted, on motion of Mr. Ruth.

THE DUEL OF COUNT BONI

PARIS, March 15.—The Castellane and Rodays duel is expected to be fought tomorrow. Count Dion M. and M. Olivet, it is said, have been named as seconds. Count Castellane is about town today but reticent regarding the affair. Rodays has named pistols as the weapons.

GERMANS IN CHINA

Immense Appropriations for Undertakings.

BERLIN, March 15.—In the reichstag today a bill was read to appropriate 122,009,000 marks for the German expedition in China. In a discussion Premier Buelow explained that the negotiations between China and the powers were making slow progress. When the German troops will leave Pekin is yet undecided. It is only said: "We will depart as soon as we get sufficient guarantees, hoping never to return."

NEW TORPEDO TRAVELS FAST

WASHINGTON, D. C., March 9.—A Swedish army officer has patented an air torpedo of a construction heretofore unknown, and received a government subsidy for exploiting it, according to a communication to the state department from Consul-General Guenther at Frankfort, Germany.

According to the patent specifications the motion of the projectile is caused exclusively by a force which is developed in the torpedo little by little from ignition of gas generated from slowly burning material. The pressure of the gas gradually becoming stronger, propels the torpedo by the arrangement which allows the gas to escape. Once in motion the torpedo increases its speed in accordance with the amount of gas pressure. The charge may consist of any explosive, provided the same is ignited only by shock or blows. The initial velocity need be but slight as the torpedo is impelled by its own force. Thus the discharge from the torpedo gun constructed for the purpose occasions no report or recoil, and but little pressure, making the handling of the device perfectly safe.

At the trials made so far the torpedoes are reported to have traversed a distance of 16,000 feet.

DISROBING IN THE STREET

Well-Dressed Young Woman Creates a Sensation in New York.

(Special Correspondence.)

NEW YORK, March 10.—A well-dressed and handsome woman about 26 years old, last night thought 27th street near Broadway was her bedroom, and immediately began to make preparations to retire. That it was cold, rainy and dreary did not matter. It was bed time, she thought, and that was all she cared about.

A crowd of several hundred excited people had gathered when Policeman Burke, of the West 36th street police station put in an appearance. The woman had already removed her hat, cloak and dress, and cast them into the rain-flooded gutter. When Burke's optics got the lady into range she was struggling furiously to separate herself from other sundry garments.

"Beg pardon, madame," interrupted the shocked officer, "but you are violating section 4879 of the corporation ordinances, which expressly stipulates that no lady who is a perfect lady shall disrobe in public in the 19th precinct."

"I am not drunk," said the woman, "neither am I a candidate for a term in the funny house. I'm simply laboring under a terrible mental strain. For the past two months I've done nothing but dream about my husband. He is Harry Cortez—the celebrated Harry Cortez. You must have heard of him."

"I have not," said Burke, decisely, "and such being the case, I must ring for the hurry up chariot."

At the station house the woman still refused to return herself to her outer wearing apparel. All the information she would give was that she was the wife of the "celebrated Harry Cortez."

LABOR TEMPLE.

The beginning of construction on the long talked of and much worked for labor temple is now an assured fact. It became such last Monday night, when the Seattle Labor Temple Association was formed. The 21 men chosen as the first board of trustees have assumed a heavy responsibility. Personal acquaintance with these men satisfies the writer that they realize the magnitude of the task they have undertaken and are equal to it. They have the hearty co-operation of every union man and woman in Seattle, and if they receive it organized labor a year hence will not be chronic house seekers and imposed upon tenants, but independent landlords, dwelling together under one roof, as a happy family.

SLEW THE CASHIER

Bank Robbers' Bloody Deed in Pennsylvania.

HARRISBURG, Pa., March 15.—Cashier Chas. W. Ryan, of the Halifax National bank, was shot and killed by two burglars yesterday, while he was attempting to protect the bank from robbery. His slayers, Henry Rowe and Weston Keeper, of Lykens, were captured by a posse of citizens and lodged in jail here, together with F. B. Straley, accused of complicity. The robbers entered the town in a buggy, hitched their horses and went to the bank. Leveling their revolvers at the employes, they compelled all to hold up their hands, ordering the cashier to turn over the money. Ryan placed it in a satchel. As they started to back out of the door, he grappled with Keeper. In the struggle four shots were fired, and Cashier Ryan fell, mortally wounded. President Faustenbaugh caught Rowe and threw him down. Keeper ran out, but was shot in the back of the head by a citizen, and surrendered. Ryan died last night.

PREFERS JAIL TO COOKING

ALTOONA, Pa., March 15.—Mrs. Jacob Henry, wife of a mechanic, prefers to stay in jail rather than cook or do other household work. Since Sunday last she has been at the city building. She positively refuses to leave there unless assured that she will be free from further domestic duties. Her husband has called on her daily and has used every argument to get the woman to return home, but all in vain.

For several months Mrs. Henry had complained of cooking meals and doing household work. Sunday night her husband took her to visit relatives at Hollidaysburg in the hope that she would return contented to look after her household functions. Instead she refused to return home, and insisted on passing the night in prison. Her wish was granted. Since that day she cannot be induced to leave the jail. The authorities are at a loss as to what to do with her. Mrs. Henry says:

"I am tired of cooking meals, and cannot afford to stop at a hotel, so I am perfectly satisfied to remain in jail."

INCORPORATED.

The Independent Telephone Co., of Seattle, this afternoon filed articles of incorporation at the county auditor's office. The incorporators are J. W. Clise, John S. McGroarty, Sherwood Gillespie, E. W. Andrews, E. R. Burwell, E. S. Barnes and W. H. White. The capital stock stated is $600,000.

SAILING OF THE DOLPHIN

Steamer Dolphin, of the Alaska Steamship Co., will sail for Skagway and Lynn canal points at 8 o'clock tonight, with 75 passengers and a full cargo of freight.

L. W. Stetson, brother of the Seattle mill man, is booked as one of the passengers for Dawson. He intends to ride from White Horse to Dawson on a bicycle. He will then go by sleds down the Yukon to St. Michael, where he will engage in the shipbuilding business.

Mrs. B. Rogers, wife of the ex-chief of police of this city, will be one of the passengers on the Dolphin tonight. She is accompanied by Mrs. Kaldron, and the two will travel over the ice to Dawson.

N. T. and A. T. Hadley, who represent a large English mining syndicate, are booked for Ketchikan. H. C. Knox and his sister, Miss Clara Knox, are also passengers on the Dolphin. They have been spending a few months in Texas, but have large mining interests near Dawson, to which they are going.

H. K. Goldberg, and his bride, will also be passengers for Skagway. They were united in the bonds of wedlock last night and will go to Skagway on an honeymoon trip.

LEAPED TO HIS DEATH

TRENTON, N. J., March 15.—A crushed and mangled body found on the Pennsylvania railroad tracks last night is believed to be that of a thief caught picking pockets on the Pennsylvania Southern express, and who jumped from the train to escape capture.

Two well-dressed men boarded the train at Philadelphia. Later a passenger discovered one of them removing papers from his pocket. He grabbed him. Other passengers and the pickpocket's comrade engaged in a scuffle. Both thieves freed themselves and made a rush for the rear platform. One of them jumped off. The other was dragged back into the car. The passengers found that they had been relieved of about $30 in 30 minutes.

The captured pickpocket was brought to Jersey city but was allowed to go, as none of the passengers could make a complaint.

WILL CELEBRATE.

The students of the University of Washington will hold a meeting at 7 o'clock Saturday evening to celebrate the passage of the university bill by the legislature. It will take place at the Armory and will be managed entirely by the students. A committee, selected for the purpose, took up the arrangement of the program this afternoon. President Graves, of the university, will be one of the speakers at the meeting.

MAY VISIT NATAL NEXT

PRETORIA, March 15.—Kitchener reports that Dewet has reached Senekal, east from Brandfort. It is believed that the Boer leader has no particular destination, but may be making for Natal.

French reports that in his further operations, 46 Boers have been killed, 66 wounded and six taken prisoners. Five thousand horses and cattle, rifles and ammuniation wagons have been captured.

CAPETOWN, March 15.—The general opinion is that there is little prospect for peace negotiations to be brought to a favorable issue.

SHE GETS A NEW TRIAL

SAN FRANCISCO, March 15.—Mrs. Cordelia Botkin, who was convicted of killing Mrs. J. P. Dunning in 1898, by sending her a poisoned package of candy, has been granted a new trial. The California supreme court thus suspends here sentence of life imprisonment. Mrs Dunning received the candy by mail at her home in Dover, Del. She innocently ate of it and died in agony. Several friends, who tasted the poisoned sweets, had a narrow escape from death. The parcel was traced through the mails to San Francisco, and Mrs. Botkin was identified by a clerk as the person who bought the candy. It was shown that Mrs. Botkin and the husband of Mrs. Dunning were intimate, and that Mrs. Botkin was jealous of Mrs. Dunning.

MUST ANSWER NEXT MONDAY

Next Monday afternoon Peter Emil, proprietor of the Columbia beer hall, will be given a hearing in the police court on a charge of operating a money paying slot machine. Chas. Rude, the proprietor of a shooting gallery at 219 Second avenue south, will be given a hearing on the same day on a charge of permitting a minor to enter a place where a gambling device was in operation.

OH, FIE!

SAUSANNE, Switzerland, March 15.—M. Andre Buffet and M. Deroulede are at this place. Seconds have been chosen, and it is expected that the duel will take place at dawn today. It has been intimated by the magistrate that the duel must not take place in the Canton of Band. This, however, is easily met.

BERNE, Switzerland, March 15.—The Buffet-Deroulede duel has terminated in the usual farce. The desire of the principals for blood-letting having abated, the second agreed to notify the Swiss police, and their appearance forbade a tragedy. The principals declared honor satisfied, and the seconds pronounced the incident closed.

Paying Taxes.

The county treasurer's office today swarms with tax-payers availing themselves of the last day offered in which to receive 3 per cent rebate on all real property taxes paid in advance.

The tax receipts of the past week exceed any week in the history of the office. The average daily receipts for the past 10 days have been over $20,000.

INHUMAN CHILD BEATERS RECEIVE JUST SENTENCES

Judge Emory Makes Quick Work of the Arlington Woman and Her Husband.

Mrs. Maud Arlington, the child-beater, was this morning sentenced by Judge Emory to one year in the county jail—the maximum sentence under the charge. Her husband, who protested that he had not witnessed the assault, got off with 10 months. Speedy work was made of the cases. The Arlingtons appeared in court about 9:30, and entered a plea of guilty. P. D. Hughes, appearing as counsel, offered words in their behalf, just sufficient to discharge the duty which befell him as a member of the bar, and Assistant Prosecuting Attorney Faben presented a brief summary of the case, which convicted it.

The Arlington woman, when asked by Judge Emory why sentence should not be imposed, arose and said she was being grossly persecuted, though confessing her brutal assault upon the child Lizzie.

Next, John Arlington, her coward husband, got up and said that he had not witnessed the attack upon the unoffending litte girl.

The sentence imposed brought general satisfaction to not only the 50 odd neighbors of the guilty pair who were present at the trial, but to every one who knew the circumstances of the unusual case.

After the Arlington woman had been safely housed in the tank, several former women neighbors followed her as far as the outer bars, with the intention of reviling her. The child-beater, however, quickly sought seclusion in a cell. Four of her companions in the tank are colored women, who assert in no mild terms that they will discipline their miserable fellow prisoner and make her human at least while she is among them.
