

NO DATE FOR MOVING HAS BEEN FIXED.

Library Board is Waiting for the Furniture Now—Building is Complete.

CONTAGIOUS DISEASES.

Board will Have Postal Cards Printed and Supply Doctors with Them so as to Govern the Circulation of Books—Do not Want to Get Them in Houses Which are Infected.

The Library Board held a meeting last night. The library will be moved as soon as the furniture arrives. This may be any time now. The furniture was to be shipped November 10.

An important resolution was adopted. It authorized the secretary to have printed and distributed among the city doctors, postal cards similar to those used in notifying the Board of Health of contagious disease. The physicians will be asked to send such cards to the public library in order that the circulation of any such diseases, by infected books may be prevented.

The building committee gave its report. The library is practically completed. The furnace is working satisfactorily and the lights are good. The house has not yet been formally accepted, but will be so shortly. The pavement is about to be laid. An application will be made for the installation of a telephone.

PUBLIC SCHOOLS THE HOPE OF THE NATION.

Rev. Percy R. Ferris will Preach About the Public Schools Sunday Night.

Rev. Percy R. Ferris will preach a special sermon on the school system in the Baptist church Sunday night. His general topic will be what the new public school means to Perth Amboy and his subject is, "Our Public Schools, the Hope of the Nation."

It is expected that as many of the people interested in the public schools will be present as possible. Mr. Ferris will probably have something to say about the Bible in the public schools and to what extent there should be religious teaching.

OBITUARY.

DIED—Mrs. Caroline Gilman on Tuesday, Nov. 10, in her 79th year. The funeral will be held from her home, 40 Jefferson street, on Friday, Nov. 13, at two (2) o'clock in the afternoon.

MEN CAUGHT UNDER BRICKS AND MORTAR

Big Cistern being Erected at the Chemical Works Caved in and Injured Three—One is Now in the Hospital—Injuries are not Serious—Had to be Dug Out.

John Levisky, a Hungarian, John W. Hanson and Abijah Riggs were injured yesterday in the cave-in of a portion of a cistern which they are building at the new plant being erected in Buckingham avenue for the Chemical works. The accident occurred at 4 o'clock. Levisky is in the city hospital and the other two men are cut and scratched in several places but not enough to confine them to their homes.

The cistern is eight feet long, ten feet high and twelve feet wide. It has been building for three weeks and is being done in sections of ten or twelve feet. The part which caved in was near the end. The top of the cistern is curved and the masonry is built over false work known as "centre." It was in moving this centre, 8x12 and weight 500 pounds, that the accident happened. Eight men were engaged. When the braces were knocked out the centre came down too suddenly and the mason work was unable to stand the strain of its own weight. It fell and about two tons of iron, mortar bricks and the heavy centre fell. Riggs and the Hungarian were directly under it and Riggs, seeing that his companion was in a tighter place than he, attempted to hold the centre up. This was impossible and he narrowly escaped being crushed under the wreckage.

The Hungarian could not get out and the whole mass covered him. His screams were so agonizing that it was thought he was dying. Men tore away the bricks with their hands. The man was taken out bleeding from cuts in the head and shoulder. The Raritan Copper Works ambulance was called and the man was taken to the hospital. Now he is doing well. None of his injuries are serious.

The weight of the falling mass was increased by an enormous iron cap which has been placed on the manhole opening. The cistern has two of these and one was at this place. The other five men got out from under the mass before it fell and were unhurt.

DEFEATED THE SENIORS.

Freshmen and Junior Basket Ball Team Happy Over Their Victory.

The Freshmen and Junior basketball team are jubilant over their victory over the Senior team yesterday. They played a good game and deserved their victory. The score was 6 to 4.

The lineup was:

Freshmen-Junior Pos't'n Seniors
R. Fletcher Centre R. Blume
G. Pfeiffer baskets Loretta Kelly
Emily Lund " Beth Watson
A. Stahl opp baskets H. Meade
L. Colyer " Hattie Hartman
Elsie Mercer side centre C. Anderson
Jetta Stacey " J. Peterson.

BITUMINOUS COAL CHEAPER.

Price at Tide Water Cut—Unable to Curtail Production.

Another reduction in the price of bituminous coal at tidewater was announced yesterday. The cut is twenty-five cents for prime grade coal and ten cents for the inferior grades. Coal is stored very extensively in cars and all legitimate means have been taken to curtail production, without avail.

PREFERRED THE JAIL TO RETURNING HOME.

Two South Amboy Boys Are Accused of Stealing a Blanket Valued at \$5.

Special to the Evening News.

New Brunswick, Nov. 12:—Fred and Edward Johnson, aged eighteen and fifteen respectively, both of South Amboy, were arraigned in court this morning accused of stealing a blanket at South Amboy, valued at \$5. John Gaub, is the owner of the blanket. Their trial was fixed for Saturday morning.

When the judge saw Edward, who is small for his age, he ordered that the boy be sent home until the day for trial. The boy's mother is dead and the lad said he would rather stay in jail with his brother. Both are kept in women's wards on account of their size.

LEHIGH VALLEY DOCK "A" WORKING FULL TIME

Dock B is Not Yet Fully Repaired—Men Working Every Other Day.

The Lehigh Valley dock A is being worked full time every day, twelve hours. The men from B dock alternate with the men from A dock. This makes the men work every other day. A dock is being worked very much lately. There is a large amount of coal in the stock yards and a lot in South Plainfield. Much of this is now being shipped. A number of Bee Line barges are lying idle at B dock awaiting orders.

Since the B dock shut down on the 1st of August, the dock working has only been used two nights. It is very likely that it will be three weeks before the B dock, which has just been repaired, will start, as the repairs are not yet completed. The rails have not been laid on B dock yet but it is likely they will be soon. A delay was caused by the frogs not arriving. They are now on hand but it will be the end of the month before the dock is ready for work.

BIG BOWLING MATCH.

Office Force of Two Big Industries to Meet on Bloodgood's Alleys.

The office force of the Federal Clay Mfg. Co., and the office force of the National Fire Proofing Co., will bowl three games at Bloodgood's alleys tomorrow night at 8 o'clock. The losing team will pay the expenses to New York, to a theatre party and a dinner at the Hotel St. Denis. The bowlers are: Federals; Sofield, Cheshire, Stevens, Weaver, Graham. Nationals; Main, Fritzinger, Hall, Miller, Rossi. J. C. Rossi, foul line tender and general judge of game.

Taken Violently Insane.

Eustina Bedina, a Pole, was taken violently insane three days ago. Yesterday Drs. B. L. Lund and W. E. Ramsay committed her to the insane asylum at Trenton.

WOODMEN DANCE AND ARE MERRY.

Held Their First Annual Ball in Braga Hall Last Night—Event Was a Big Success.

DANCED LONG AND EARLY

Hall was Filled with Friends of the Order and all had a Delightful Time—Good Music and a Excellent Floor—Refreshments were on Hand and Nothing was Lacking.

The Woodmen of the World gave a dance last night in Braga Hall. It was one of the most successful affairs ever given by any order of this city and it reflects the excellence of that order in its very capable management and execution.

The hall was filled and every one had a good time. There was dancing to music furnished by Prof. Morrissey's orchestra. It lasted until early this morning. Plenty of refreshments, served by Masterston, completed the success of the undertaking.

The grand march was led by Thomas Bolger and Mrs. W. V. Ash. The Committee of Arrangements was J. C. Ludwig, James J. Flynn, E. Switzer and Paul Kroeger. The floor director was W. V. Ash, James J. Flynn and Thomas Bolger assisted. The reception committee was H. Hitzler, E. Ash, J. H. Brown, J. P. Hanson, O. Larsen and Thomas Crowe.

Perth Amboy Camp No. 19 organized on the 13th of April 1903. November 1 it numbered 330 members. Now it has 330. This is believed to be the largest number in any society in Perth Amboy.

The following are the present officers: Past Council Commander, Sov. W. P. Bradley; Council Commander, Sov. C. Mathinsen; Advisor Lieutenant, Sov. E. M. Gardner; Escort, Charles A. Helmer; Watchman William Olsen; Sentry H. Clark; Clerk H. K. Mason; Banker A. Bollschweiler; Physician G. J. Howell; Managers E. Ashe J. Ludwig J. Poulsen.

Central Pleasure Club Ball.

The Central Pleasure Club will hold their second annual masquerade ball in Dewey Park on December 15. The music for the occasion will be furnished by Prof. Steinhauser's full orchestra. Four prizes will be awarded, two for the handsomest costumes and two for the most comical costumes. The committee of arrangements is as follows: Andrew Anderson, chairman, Charles Johnson, Andrew Johnson and Jacob Lamp.

Copper Mines Resume Operation.

Operations were resumed at all of the Amalgamated Copper Company's properties in Montana, yesterday as the result of a promise made by William Scallan that he would reopen the workings at once if Governor Toole called a special session of the Legislature to enact legislation providing for the hearing of litigations by unprejudiced judges.

Performed Operation.

Dr. H. M. Brace performed an operation Wednesday afternoon at 3 o'clock. Mrs. Adrian Johnson, of 129 Brighton avenue, was the patient. Mrs. Johnson has been ill for several weeks and an operation was the only means of relief. She is doing nicely at present.

To Return to Mexico.

Stacey Tuttle, who has been visiting his family on State street for the last month, on a vacation from his duties in Mexico, received word this morning to return to his duties in that place.

JAPANESE SAILOR PLEADS NOT GUILTY.

Arranged in Court this Morning on Two Charges—New York Interpreter Present.

Special to Evening News

New Brunswick, Nov. 12:—The Japanese sailor, accused of killing a companion at Carteret, was arraigned in court this morning to plead. An interpreter, Goroku Jikeda, an editor of a Japanese newspaper in New York, was present. Through him the prisoner said his name was Jinkichi Matsumura. There were two charges against him. One of killing and the other of atrocious assault and battery. The prisoner pleaded not guilty to both. The date for his trial has not been fixed. No lawyer has been assigned for the defense, but it is said a Japanese lawyer from New York will be engaged.

SEVERAL CHANGES AMONG TEACHERS.

Assignments to School No. 6 Causes Vacancies Elsewhere Which will have to be Filled.

The appointing of teachers for the new school No. 6, will occasion many changes in the other schools. Miss Lillian Suow will be brought from No. 5 to No. 1. Miss Mary Mercer will go from No. 4 to No. 1. The teachers, who go to the new school leave the following places: Miss Nellie Hartshorne and Miss Rose Langan are to go from No. 1 where they have been assisting. Miss Agnes Hardiman and Miss Anna Parks will go to the new building from No. 2 school and No. 5 annex respectively. Miss Hattie Sharrot and Miss Grace Carman have been teaching in the Elm street annex. Miss Laura Ernst has been teaching at No. 1 temporarily. Mr. Reagle has been assisting in the High School. Mrs. Bertha Hoff will substitute until February when she will be replaced by a local young lady who graduates from normal at that time.

The new school will be occupied Monday. Everything is ready with the exception of the blackboards. The seating capacity of the building is 650. There are 492 transfers alone. No account is taken of those on the waiting list, those living in the Sixth District are those who may apply.

Locomotive Broke Down.

A locomotive No. 2,609, from New York to Philadelphia, broke down in New Brunswick avenue this morning and was stalled for over half an hour. Finally repairs were made and the journey continued.

To Give Ball January 14.

The Hebrew Progressive Association will give a masquerade ball in the Grand Central Palace, Fayette street, near Madison avenue, January 14. Every effort is being put forth to make this a great success.

Planning for Masquerade Ball

The Harmonie Singing Society is planning to hold a masquerade ball in Wilder Hall on the night of December 10.

P. NYGREEN,

Successor to L. Albert & Co.

Photographic Studio...

Everything in Portrait, Landscape and Interior Photography.

P. O. Building. Perth Amboy, N. J.

Yesterday afternoon the authorities at the Central freight station notified Officer Wood that there was a large amount of nitro-glycerine at their office and they feared an accident if it was not removed at once. The police cannot act upon the matter as Chief Burke says that as anything affecting the lives or safety of the people from an agency which is not human, comes under the Board of Health's jurisdiction and that as a menace they should take steps to remove it. Dr. W. E. Ramsay says the matter does not affect the Board of Health. Who is to dispose of the matter, furnished food for much thought.

There are four cases of the nitro-glycerine, fifty pounds each. This makes a total of 200 pounds of an explosive ten times as powerful as dynamite and three quarters of a pound of dynamite will blow up three tons of solid rock. What will happen if it goes off is worrying the officials of the freight station.

John H. Gregory had the stuff taken to the station Monday. He had sold it to a New York man and wanted it shipped by freight. The boxes have each a little printing on an end telling the nature of the contents. When the freight men read these notices they held the packages until word could be received from the General Traffic Agent at Jersey City. They consented to hold the stuff until advice was received from headquarters. Headquarters refused to have the explosive taken over the road. Mr. Gregory was notified and requested to remove it. He refused, saying he had sold it to another man. This morning Mr. Gregory went to New York. It is thought he may have gone to untangle things. Just how long the stuff will stay at the Central station is worrying the men there. If that two hundred pounds comes in violent contact with something else, Perth Amboy will think that the dynamite boat Vesuvius had thrown one of her projectiles into the city. Nitro is queer stuff. Unconfined it will burn without causing any more mischief than so much paper, but put it in a tight can and strike it hard enough and there will be trouble.

TO ORGANIZE TURN VERIN.

Movement on Foot to Establish One Here in the Near Future.

Plans are being completed to start a turn verin in this city. E. K. Southwick, the electrician, is at the head of the movement. He is a member of the Newark Turn Verein, of Newark, and believes one could be established here with much success. The turn verin is devoted entirely to gymnastics and similar exercises including all sports. Mr. Southwick has spoken to a number of prominent citizens about the matter and they have approved the plan. As soon as enough interest is assured to make a turn verin a success, the organization will take place. In Newark both turn verins own well equipped buildings. All interested should see Mr. Southwick.

More Men Put to Work.

There now seems every prospect that the Raritan Copper Works will have plenty of work all winter long. Besides the large number of men put to work on Monday, another gang was given work today. The Copper Works is one of the largest industries of the town, and every one will be glad that there is plenty of work.
