New Orleans, July 31.—(Special.)—Umpire Clark today gave the game to New Orleans by a score of 9 to 0. In the seventh inning with the score 7 to 2 in favor of the Pelicans Clark ordered Pender out of the game. Pender had used some foul language towards the man with the indicator and the official would not stand for it. Pender drew out his watch and waited for the usual five minutes to pass and announced to the crowd that he was going to leave the game. Pender was untruthful throughout the game. In the opening innings Harlow "sassed" the umpire and he was put out of the game. Pender taking his place at first. In the first half of the seventh when Moore was called out at third Gifford rushed to the diamond and he, too, "sassed" the official. He was ordered out of the game. "King" Bailey taking his place at center. Pender was real mad when New Orleans went to the bat and showed his displeasure by abusing the umpire, using all sorts of foul language. Then it was that the manager of the Alabama team was told to get on his feet and leave the game and the game was forfeited to the local club. The Pelicans battled Baker hard and would have won hands down had the game continued. The crowd was divided in its opinion as to whether Umpire Clark was correct or not in ordering Pender out of the game or not.

A MOTION OVERRULED

PLEA FOR A NEW RECEIVER IS DENIED.

The Montevillo Coal and Railroad Company Again Before the Federal Court—Other News of Local Courts.

Judge John Bruce of the United States Circuit Court, sitting in Chambers, yesterday rendered an opinion overruling motion for the appointment of a new receiver for the Montevillo Coal and Railroad Company. The motion for a new appointment was made by Julius Davidson and L. J. Haley of Birmingham. It will be recalled that a few weeks ago Judge Bruce appointed Alex Sanford of Montgomery receiver for this company to succeed Julius Davidson, who was removed on account of ineffectuality because he was holding a Federal position in Birmingham. The petition alleged that Judge Bruce had no jurisdiction in this appointment because the newly appointed receiver resided in the Middle District of Alabama while the Montevillo Coal and Railroad Company was located in the Northern District of the State. Argument was heard and the motion to appoint a new receiver was overruled. Application was also made yesterday by Julius Davidson, the receiver, for a writ of habeas corpus to remove him from his position as receiver of the Montevillo Coal and Railroad Company for authority to issue sufficient receivers certificates to protect the properties from waste, damage or destruction. There are some forty houses and valuable machinery which is uninsured. There is no money in the hands of the receiver sufficient even to pay for the services of a "watchman."

Under the duty imposed upon the receiver application had to be made to the court. This was done by the receiver in order to relieve him from responsibility in case a loss or damage occurred. Some of the creditors possessed the issue of certificates and moved that the property be sold instead.

The City Court.

The following cases were disposed of in the City Court yesterday:
Morgan Lee, grand larceny, guilty.
Swink McGhee, grand larceny, guilty.
Simon Marcus, burglary and larceny, not guilty.
Ned Matthews, burglary and larceny, demurred on indictment sustained, and denied on new indictment.
York McDonald, assault to murder, plea of guilty to assault and battery, fine assessed at \$300.
Joe Jackson, burglary and larceny, guilty.
The cases against Willie Green, Grace and Willie Robinson, Willie Grace and Jim Winslow, burglary, on trial when court adjourned until today.

Eliza Reed, a negro woman who resides at No. 4, Magle Street, was arrested on a warrant sworn out before Justice W. C. Fuller, charging her with assault and battery. It is alleged that the negro woman became angry at two negro children named Desse and Jesse Brown because they went in her house and it is said that the woman rudely pushed the children out of the house and threw the other one from the house. Later the warrant was withdrawn and the case was thrown out of court.

Petitions in bankruptcy were filed yesterday by John Brown Holcombe and John Peagin of Montgomery.

A MEETING WAS HELD LAST NIGHT.

Employment Clause of Article which Was Recommended is Amended. Will Be Reported to Convention This Morning.

The Committee on Suffrage and Elections held a meeting last night to consider subdivision 1 of Section 5 of its report with the amendments which had been recommended to it yesterday.

The subdivision relates to the business or occupation of the citizen who proposes to qualify himself to vote under the article now being considered by the Convention.

The Committee carefully considered the matter in all its phases and after discussion decided to report the subdivision back to the Convention this morning with the words, "the greater part of," added before the words "twelve months," which will make it read as follows:

"First—Those who, unless prevented by physical disability, can read and write any Article of the Constitution of the United States in the English language, and who, being physically able to work, have been regularly engaged in some lawful business or occupation, trade or calling for the greater part of twelve months next preceding the time they offer to register in the city."

It will be observed that the words "the greater part of" have been added by the Committee to its original recommendation. The report will be made to the Convention this morning.

Mr. Williams of Marengo, appeared before the Committee and argued in favor of his amendment to allow any man to vote who has been at home on election day to vote for State officers upon presenting proper certificate of registration and taking a certain oath of eligibility. No definite action was taken upon the matter and it is yet to be decided by the Committee.

NEWS OF RAILROADS

MOBILE & OHIO LITIGATION DISCUSSED.

A Well Posted Man Says Suit Brought by Mississippi People is Very Farical—Railway Notes and Personal.

The all-absorbing proposition in railroad circles yesterday was the effort of the Mississippi people to set aside the Southern-Mobile & Ohio deal, and the consensus of opinion was that it would be little more than a flash in the pan.
Speaking of the matter a well posted railroad man said:
"This latest move is, to my mind, farical in the extreme, and I don't see how anything can result from it. The deal made by Colonel W. Butler Duncan was one of the shrewdest moves that has been heard of in a long time. He got from the Southern Railway one per cent for the first year, two per cent for the second year, three per cent for the third year and four per cent on the stock for perpetuity. The holders of the debenture stock have long since transferred their holdings to the Southern, and this thing is the dying effort of a few of the minority stockholders."
"Now, I think that the deal made by Colonel Duncan was one of the biggest financial achievements that the Mobile & Ohio has ever made. Only once in the history of the road has the Mobile & Ohio declared a dividend. Some years ago, when Mr. J. C. Clarke was President and General Manager, the directors declared a dividend of one per cent, and Mr. Clarke, in compliment to Mr. Clarke than anything else, this latest move will not amount to much in my opinion."

Traveling Auditors W. A. Colson and J. A. Duane, of the Louisville and Nashville are here checking up the local Louisville and Nashville freight office.

The local Artillery and Cavalry companies reached the city on train No. 6 from Mobile yesterday afternoon, camp having been broken in that city yesterday.

Man and Wife Murdered.
Memphis, Tenn., July 31.—A Scimitar special from Helena, Ark., reports the murder of Isaac Lane and wife on Island sixty-six in the Mississippi River. Both were almost shot to pieces. Will Kelly and rank Fannon, charged with the crime, were captured by constables after a fight in which both of them were wounded. All of the persons concerned, including the officers, are negroes.

Money Taken from Germany.
Berlin, July 31.—The Cologne Gazette says large amounts of French and English money were withdrawn from Germany during the past few days because the rates for first class commercial bills are too low.

COUNCIL MEETS MONDAY

Will Discuss Insurance Rates and Matter of a Public Hospital.

The City Council will hold its monthly meeting next Monday night. There is nothing of especial importance pending before the Council and only routine business is to be transacted at the approaching meeting. The matter of purchasing a chemical engine for the Fire Department is still pending, and Alderman Toole, Chairman of the Fire Committee, says he is heartily in favor of the purchase. He says he recognizes the great acquisition it will be to the Department, and that it will be a protection to property in the city.
Alderman Roman is standing for the city in the proposed addition to the fire fighting machinery and he holds that the engine will be mainly in the interest of the fire insurance companies. He insists that there should be some return for the investment. He says he is of the opinion that Montgomery should be put in the table of rates with first class cities and will not see how anything can result from it. The deal made by Colonel W. Butler Duncan was one of the shrewdest moves that has been heard of in a long time. He got from the Southern Railway one per cent for the first year, two per cent for the second year, three per cent for the third year and four per cent on the stock for perpetuity. STEVENS BOUND OVER.

Abstractor Charged With Forgery by His Former Employers. Bond Fixed at \$250.

C. C. Stevens, charged with forgery, was tried before Justice W. C. Fuller at 4 o'clock yesterday afternoon. After hearing the testimony, Justice Fuller bound Stevens over to the grand jury for the purpose of being indicted. The testimony showed that Stevens had been employed by the State Abstract Company as an abstractor. J. S. Pinckard, President of the company, testified that Stevens had been authorized to abstract for the company on October 29, 1900, an abstract was ordered for a law firm, for which a fee of \$11 was charged. Later another law firm ordered an abstract, for which a fee of \$5.50 was due. They claimed that Stevens had collected on the abstract, a record of which had been ordered from the docket and another put in its place.

A PLAIN TALK TO

SENSIBLE PEOPLE

There are thousands of people afflicted with chronic diseases who have not known a well day for years, although not confined to their beds. They are able to be up, but totally incapacitated for work or pleasure.

I want to convey a word of hope to such sufferers. You are not incurable, but you will never be well unless you get your condition some serious intelligent thought and realize that health is the most valuable
