Document Receives Formal Sanction of Cubans—General Wood Outlines This Country's Wishes.

Express Train Crashes Into Passenger Train—Ten Killed and Twenty-Five Injured in the Wreck.

Mrs. Nation Will Edit a Paper—The Hatchet Will Be Abandoned For the Pen—Decree Is Issued.

Havana, Feb. 22.—The Cuban constitution, first submitted by the central committee to the convention at the public session of Jan. 21, was signed yesterday. One copy was sent to Governor General Wood and the other placed among the records of the convention. Senator Cisneros created a sensation by refusing to sign. He said: "Cuba is now independent and I see no reason for sending this constitution to the United States for acceptance. The United States government has no right to pass on it, for it is a distinctly Cuban document and was drawn up by this convention, which has assumed the responsibility of establishing the republic." Several delegates crowded around him and endeavored to dissuade him from his course, but he was immovable. Senator Tamayo remarked: "We are all Cubans, senators and senators. Cisneros replied: 'Yes, when the time comes to fight the Americans, we will fight them together.'"

Senator Cisneros, president of the convention, will deliver the document to General Wood at the palace today. General Wood and his staff will receive formally the commission charged with the duty of presenting the constitution. The latter will be translated, and a copy in English will be sent to Washington with the original. Probably the translation will not be ready before Monday.

General Wood sent a personal letter to Senator Tamayo, chairman of the special committee on foreign relations, outlining the suggestions received from Secretary Root, but pointing out that these were only suggestions of the opinion of the executive department as to what the people of Cuba should desire to have established and agreed upon between the United States and Cuba and should not be taken as an official declaration of the United States, it being necessary to refer the whole matter to congress.

President Reese's report was a complete review of the mining situation during the last year, and showed that the price of coal had advanced in this district in many ways a profitable one, not from the fact alone of the increased price of mining nor the increased employment, but because the organization does business in a business manner.

They held a strong position obstinately, but were turned out after severe fighting, in which the yeomanry, the Victorian Bushmen and the Lancashire volunteers were three officers and 13 men killed and five officers and 25 men wounded. LARCENY OF \$50,000.

Grand Jury at Chicago Returns Indictment Against Salisbury—Guy C. Barton of Omaha the Loser.
Chicago, Feb. 22.—An indictment was yesterday voted by the grand jury against "one Salisbury, alias William Wood," charging him with the larceny of \$50,000.

The evidence upon which the indictment was voted was given the grand jury by Guy C. Barton of Omaha, said to be one of the wealthiest residents of that city. K. C. Barton, son of Guy C. Barton, and C. E. Loss of Co. of Chicago.

After the indictment was found, papers were prepared to secure the extradition of Salisbury from the state of Michigan, he now being, it is said, in that state.

The evidence in the case was kept secret. It is said unofficially that the alleged larceny is the outcome of a railway construction contract involving \$400,000. It is said that Barton and his son came to Chicago bringing \$50,000 as earnest money in the deal. The amount was entirely in currency, and was deposited in a safety deposit vault. Four days later Mr. Barton went to the vault and found that the money had been taken away.

The verdict was handed to Clerk Grunther, who read:

We, the jury duly empaneled and sworn in the above entitled cause, do find and say that the defendant, Nicholas J. Gentleman, is guilty of murder in the second degree in manner and form as charged in the indictment.

If Gentleman heard the verdict there was no outward show to indicate it. He maintained the same indifference to his surroundings that has marked his demeanor throughout the trial.

KNOWN DEAD NUMBER TEN

Nellie Bly Express Crashes Into Passenger Train, and Twenty-Five Are Injured

Casualty Occurs on the Amboy Division of the Pennsylvania Road Near Bordentown, N. J.—Most of the Victims Are Italians—Wreckage in Flames.

Trenton, N. J., Feb. 22.—One of the worst collisions in the history of the Amboy division of the Pennsylvania railroad occurred at about 5:30 last evening at Rulings siding, near Bordentown. The "Nellie Bly" express from New York for Atlantic City collided with passenger train No. 330, running from Camden to Trenton. The number of dead so far as known is ten and the injured upwards of 25. A special train from the scene of the wreck brought in four dead bodies and 18 wounded persons to Trenton.

Among the killed was Walter Earl, engineer of the express, and James Birmingham, baggage-master of the local train. Most of the killed were Italians. Frank Boland, a passenger, had both legs cut off. The doctors say he will die. Michael McGraw, fireman of the "Nellie Bly," was badly injured, but is expected to recover. Frank Thompson, engineer of No. 330, had a leg broken and is badly bruised. He is in a precarious condition. Edward Garwood, fireman, was badly bruised by jumping, but will recover. Most of the remaining dead and injured are Italians. The Italians were riding in the smoking car of the express train. They were being taken to Atlantic City to do construction work for the railroad company. The two trains collided at full speed and both engines were completely demolished.

The forward cars of both trains, in each case a combination baggage and smoker, were entirely demolished also and the wreckage took fire. The second car of the "Nellie Bly" turned over on its side and the passengers had to climb out through the windows. In this they were assisted by passengers from the cars that did not leave the track.

Thomas Lawton of Trenton saw one man buried under the ruins, he tried to pry him out, but could get nothing to help him. He believes the man perished in the flames.

The "Nellie Bly" was running in three sections and it was the third section with which No. 330 collided. The local train had taken the siding to permit the express to pass and it is believed that through some misunderstanding or mistake the local came out on the main track after the second section had passed, mistaking it for the third section.

RAN INTO OPEN SWITCH.

Fast Express on the Vandalla Wrecked Near East St. Louis.
St. Louis, Feb. 22.—The fast express on the Vandalla ran into an open switch at the St. Clair crossing, near East St. Louis, yesterday, probably fatally injuring John Vandave, engineer, and Henry Rieckman, fireman. John Gregg, mail clerk, was seriously hurt. All live in St. Louis.

When the express struck the open switch, it ran into a car loaded with long bridge timbers. Some of the timbers were jammed into the engine head and boiler a distance of six feet. Escaping steam and boiling water flew in every direction. The mail car was wrecked and Mail Clerk Gregg was caught behind the safe. The passenger coach next to the mail car was partially wrecked, but none of the passengers was injured.

Bloomfield, Ia., Feb. 22.—Lorenzo Waugh, alias William Yates, wanted at Muscatine, Fredonia, Bloomfield, Columbus Junction and other cities, has been run down by the police at Salisbury, Mo. He is to be brought back to Iowa if the governor signs requisition papers. Waugh is accused of working the scheme of going into a strange city and announcing himself as a great uncle of unlimited looking for relatives. He would, it is alleged, ingratiate himself into the confidence of the leading people of the town and after borrowing money would suddenly leave town.

EXPANSION IN TRADE.

One Tone in Business Despite Continued Cold Weather.
New York, Feb. 22.—Bradstreet's says:

Trade as a whole has shown further expansion this week, despite severe weather tending to check trade at some northern and western markets in the face of very unsatisfactory conditions in the cotton market. The position of retailers with large stocks has been largely improved by the continued cold weather. Foremost among the lines noting improvement this week is the dry goods trade, which is reported active on spring account by buyers. The boot and shoe industry has likewise continued in a satisfactory shape, and some varieties of leather reflect recent activity in advances at eastern markets. Iron and steel in the order forms have been very strong at central and eastern markets, and considerable advances are reported in pig iron and steel billets.

The cereals show little definite movement, taking the week as a whole, excepting flour, which is 100,000 a barrel higher. Wheat is fractionally higher, but oats are unchanged, but the corn situation is notable in view of this being a season of increasing stocks. Chief support comes from the active foreign and domestic demand for real, consumptive requirements for which seem to have definitely overtaken production.

DECREE IS ISSUED.

Chinese Plenipotentiary Instructed to Notify Foreign Envoys of Acquiescence in Demands.
Peking, Feb. 22.—Prince Ching and Li Hsun Chang have received telegraphic instructions from the court to notify the ministers of the powers that an edict has been issued regarding the punishment of Chinese officials, contrary to the demands made by the ministers, as follows:

General Tung Fuh Siang to be degraded and deprived of his rank. Prince Chwang, Ying Nien and Chao Shu Chiao to commit suicide. Hsu Chen Yu, Yu Hsien and Ki Hain to be beheaded.

This is not exactly what the ministers demanded, but it is considered advisable to agree to it, as the demand for lives has been agreed to except in the case of General Tung Fuh Siang, whom the court is powerless to molest. There is a private understanding that his life will be claimed when it is possible.

The European and Chinese secretaries of legations and others who have lived in China for years consider that China has gained a victory, as the only man the court has to behead is Yu Hsien. The other two are in the hands of the Japanese and could be beheaded when their execution is wanted. Suicide is no disgrace whatever in the eyes of the Chinese. No one believes General Tung Fuh Siang will ever suffer punishment.

People here say Chinese imperial edicts are very unstable documents, especially when private edicts to the executive officials accompany the public edicts. A recent decree ordered all indicted officials to commit suicide, yet it is evident a secret edict was sent instructing the persons implicated not to obey. That proof, it is asked, is there now that the terms of the decree will be carried out?
