

WADSWORTH TO BE NEW TURF CZAR

Slated to Succeed Chairman
August Belmont.

RIVAL MAY GET LICENSE

Empire City Track Would Conduct
Running Meet as Result of
Change.

ALBANY, June 2.—It was announced today in the executive chamber that Representative James W. Wadsworth would displace August Belmont as chairman of the State Racing Commission.

It is understood that Mr. Belmont, because of his many sacrifices for the turf and his intimate knowledge of racing, would remain a member of the commission, but Governor Higgins, it seems, has decided that the commission must be responsible to the Republican State organization, and, therefore, Republican in fact as well as in name.

It is not known whether Mr. Wadsworth will displace Mr. Morgan or Mr. Sanford, former Representative in Congress. Mr. Morgan nominally is a Republican, although it is said he has not voted in several elections. Mr. Sanford and his father have been among the strongest party men in the northern tier of counties. Mr. Sanford is a breeder of horses, a large owner in the Saratoga Racing Association and a thorough sportsman. This induces the belief that Mr. Morgan and not Mr. Sanford will be retired.

Whether Mr. Belmont would care to serve on the State Racing Commission if deprived of the chairmanship through any political action is not known. He gave much of his time and contributed money for the reformation of racing in 1895 and 1896. His friends here say there is now no politics in the State Racing Commission, and that his displacement as chairman would result in his resignation. Mr. Belmont is a personal friend of Mr. Wadsworth and a close friend of Mr. Sanford, and it seems unlikely that either man would vote to displace him as chairman of the commission.

Nevertheless it was said on the best authority that Mr. Wadsworth is to be the new chairman, and that when this event comes about there will be a new deal in issuing licenses to the racetracks. Probably the first result will be a license to the Empire City track, owned by James Butler.

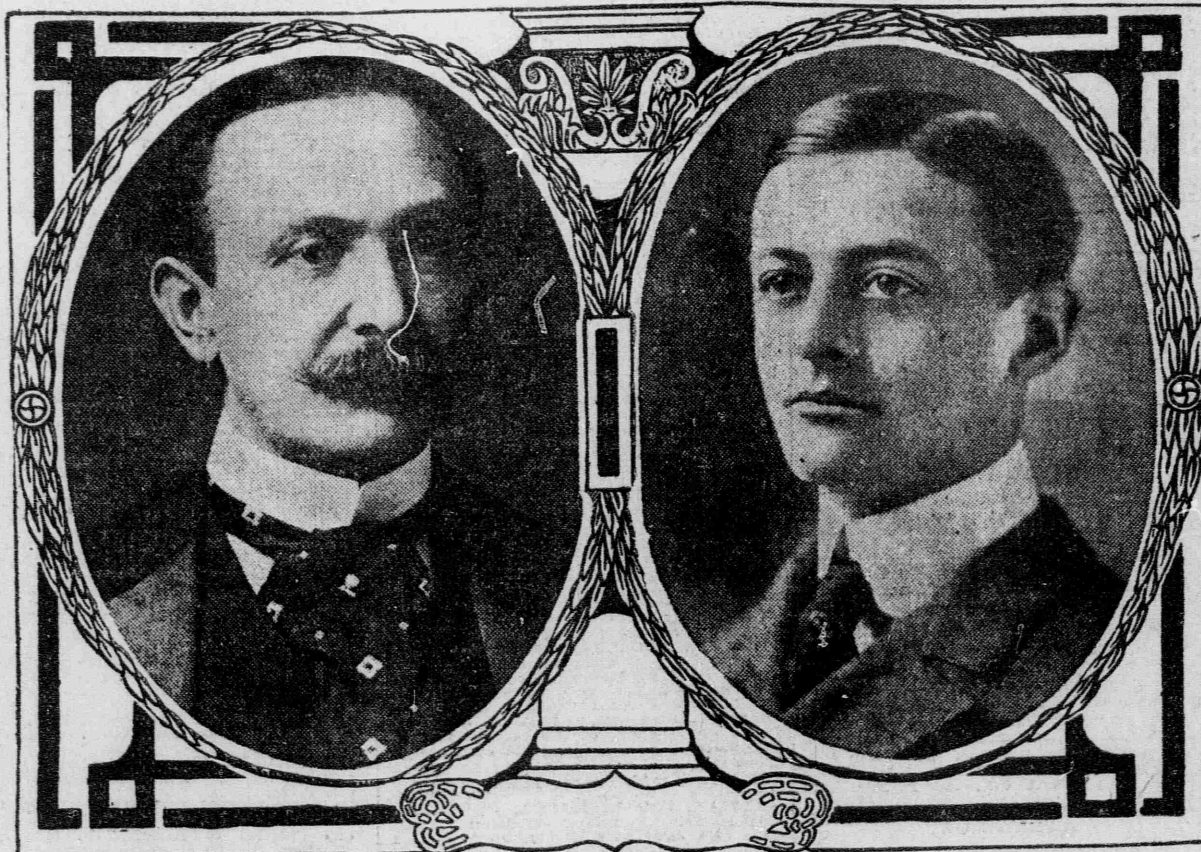

TWO MEN INDICTED ON COUNTERFEITING CHARGE

BOSTON, June 3.—The grand jury returned true bills against Louis and Joseph Berkowitz and Morris Levinson, who were arrested in Worcester, on charges of counterfeiting.

Frank O. Pierce, formerly a mail clerk on New York-Boston trains, was indicted for alleged embezzlement from the mails.

WOMAN FIGHTS WOLVES FOR A DREADFUL HOUR

Her Only Weapon a Buggy Whip, But
Hank Hendrix's Revolver Scatters
the Pack.

REFUGIO, Tex., June 3.—Mrs. Marie Panches and two little children were on their way from the Lucas ranch to Blanton when a pack of Lobo wolves came up behind the buggy and began barking. It is the first time wolves had been known to show such boldness in this region, and Mrs. Panches at first thought that they were dogs. They made an attack upon the horse and soon had that animal down.

Mrs. Panches used the butt end of her whip to defend herself and two children. The wolves gathered around the vehicle and made leap after leap at her and the children, their evident purpose being to get them by the throats.

Beat Them With Whip.

Mrs. Panches is strongly built and she used the clubbed whip to good advantage. Every time a wolf sprang at

her or her children it was driven back by a well-directed blow. There were probably thirty wolves in the pack and as the light progressed more of them kept coming out of the thick underbrush which lined the road. The fight soon became an unequal one and at the end of an hour Mrs. Panches was in an almost exhausted condition. Just at the moment when weakness was about to overcome her Hank Hendrix, who carries the United States mail between Beville and Blanton, drove up. A few well-directed shots from his pistol scattered the blood-thirsty pack of wolves.

DISSENSION OF OFFICIALS CAUSES BANK TO CLOSE

TRINIDAD, Col., June 3.—The American Savings Bank closed its doors today. Its liabilities are \$175,000 and assets \$196,000. J. L. Bridge, its president and cashier, made the following statement:

"We have closed our doors and temporarily suspended business for the unfortunate reason that officers of the bank are in dispute as to certain questions of policy, which were growing to the point of jeopardizing the bank's interests. I wish to add, however, that our bank is solvent and our depositors will be paid to the full extent of their claims."

CIGARETTE GIRLS IN GERMANY STRIKE

Tobacco Trust Forbade Them to Join
Any Union and They Will Not
Hear to It.

BERLIN, June 3.—The American Tobacco Company, which controls, or nearly controls, the manufacture of cigarettes in this country, has a fight on its hands which may end in its undoing.

All the girls in the cigarette factories of the trust, numbering more than 10,000 in the city of Dresden alone and more than 50,000 altogether, have gone on a strike because the trust forbade them to belong to any union.

The independent manufacturers, who think the moment has come to break the power of the trust, are preparing to engage all the strikers to prevent them from going back to the trust. The leaders of the girls declare that under no circumstances will they roll another cigarette for the American concern. So it looks very much as if this trust had met its Waterloo.

CHANGES BY KAISER IN NAVAL PROGRAM

Armored Cruiser, Nearly as Formidable as a Battleship, to
Be Built—Lighter in Weight Than Many More
May Be Built.

(Special Copyright Cable.)

BERLIN, June 3.—The Kaiser has made several changes, it is understood, in the naval program which is to be submitted to the reichstag this fall. Increase of the German navy is to follow the lines laid down by the English and American naval authorities. The Kaiser considers it of the utmost importance that the number of swift

armored cruisers of the type almost as formidable as a battleship be increased as fast as possible. To build more of these he considers it advisable to decrease their size from 14,000 to 11,000 tons. As soon as a number have been built, the size and armament is to be materially increased in those to be built later. All battleships to be built in the future are to be at least 5,000 tons larger than those already in commission.

BANDIT ROBS TABLES IN A GAMBLING HOUSE

One Man Holds Up a Dozen and Escapes
Amid a Shower of
Bullets.

EL PASO, Tex., June 3.—A lone bandit held up two dozen men just before daylight in a Douglas, Ariz., gambling house, seized the money on the tables, and escaped.

A posse started after him, and he is known to be wounded. There is much speculation as to the identity of the bandit, but from his boldness it is believed to be Bill Stiles, the outlaw who escaped from the Tombstone jail a few months ago and has since been in the Yaqui country of northern Sonora, where he has defied the Mexican rurales and the Arizona rangers, and has been declared to be at the head of the Yaqui rebellion.

Jack Kniadewicz, proprietor of the place robbed today, opened fire on the bandit. Others followed, and it is a mystery how the robber escaped, but he mounted his horse and rode away with his spoils in the midst of a shower of bullets. Blood on the ground told that some of the balls had taken effect, and when the posse formed later they easily trailed him to the Mexican line.

BERLIN CHEERS FRENCH DELEGATES TO WEDDING

BERLIN, June 3.—The French delegates to the wedding of Crown Prince Frederick William, General de Lacroix, Francois Arago, and Rear Admiral de Marolles, have arrived here, and were cheered by a crowd. This probably was the first time in a generation that Frenchmen have been cheered in the streets of Berlin.

THIRTY INDICTMENTS IN BEEF TRUST CASES

Ten More True Bills Being Prepared
Against Others Connected With
Packing Houses.

As the result of the evidence gathered by the Federal grand jury, which has been investigating the beef industry in Chicago for two months, indictments against thirty men connected with the big packing houses are now being prepared by Assistant Attorney General Paquin and District Attorney Morrison, who were at the Department of Justice yesterday afternoon in conference with the Attorney General.

None of the officials of the Department of Justice would discuss the matter, but it is understood that thirty true bills have been drawn and that ten more are being prepared. A corps of clerks and stenographers has been at work on the evidence obtained by the grand jury, which has been classified and arranged as follows:

Combination (main issue)—Names of witnesses and brief explanation of what they testified to. Casing business (Aetna Trading Company)—Names of witnesses and brief explanation of testimony. Railroad rebates (meat charges alone)—Names of witnesses and brief explanation of testimony. Icing charges (packing business)—Names of witnesses and brief explanation of the testimony.

Perjury (in all branches)—Names of men charged and evidence of their guilt. Interference with witnesses (in all branches)—Names of witnesses tampered with and the importance of the testimony of these witnesses furnished.
