ICE FORMING IN BAY HERE; COAL NEEDED

Coldest Weather of Year Causes Ice to Fill Bay—See No Relief

SUFFERING IS INTENSE

See Warmer Weather in Northwest Where Zero Weather Has Prevailed

For the first time so far this winter the Staten Island sound was frozen over solid at the early hours this morning, and should the cold wave continue the ice which has formed for the past forty-eight hours on the waters in this vicinity will give considerable trouble to navigation in this section, especially to the shipping of coal from the local docks. Raritan Bay was well frozen over with a good coating of ice.

The ferryboat Perth Amboy of the Staten Island Rapid Transit plying between this city and Tottenville, in making its way back and forth over the sound, especially in the early hours had to cut its way through the frozen mass that reached out from shore to shore.

With the mercury hovering about the lowest mark of 3 above early this morning the weather man is not giving out much information for relief from the grip of the cold wave which began Wednesday night. Although the wind at times last night attained a velocity of about fifty miles an hour, the thermometer began to descend down again after the gale had somewhat subsided.

With the sudden drop in the thermometer for the past few days the coal situation has become another factor where those who had but a small supply of the fuel at home are beginning to feel the pinch of winter's icy blasts. Although there has not been any real cases of suffering reported there is believed to be some people that have not a very great supply of coal to last them very long should the extreme cold continue.

Relief is in Sight
CHICAGO, Feb. 16.—With the backbone of the cold wave broken, the upper Mississippi valley and the northwest today made further progress in recovering from the blizzard which paralyzed transcontinental transportation, demoralized telephone and telegraph lines and cut off many communities. Continued cold weather was predicted today for the remainder of the week, but this was accompanied by fair weather signs.

Train service in the northwest rapidly was resuming normal today. The center of the cold area is remaining in the northwest keeping temperature readings from 10 to 50 degrees below zero.

Fall to Hear from Ship
NORFOLK, Va., Feb. 16.—Reports of coast guard headquarters to get in touch with the Italian steamship Monensio, reported sinking 500 miles off the Virginia Coast yesterday, had been without result at noon today. The steamship Carlake, New Orleans for Havre, picked up the distress call of the Monensio and went to her assistance, but attempts to communicate with her also were of no avail.

The message received yesterday from the Friendship stated she was sinking at the rate of one foot an hour. She was making about six knots an hour toward Cape Henry, but coast guard officials said the heavy northwest gale would force her to tack back and forth and prevent her making any progress toward the cape.

The Friendship, which sails from Rockland, Maine, was enroute from Hampton roads for New England ports with a cargo of lumber.

Big French Mine Strike
PARIS, Feb. 16.—(By The Associated Press).—The strike of coal miners in northern France, ordered by the United General Confederation of Labor, the communist organization of seceders from the General Confederation of Labor, began today with probably 25,000 men quitting. The ministry of public works announced that of 50,000 miners in the Pas-de-Calais region, only 3,000 went on strike.

DAVID CHIEF OF DETECTIVES

Confirmation of Appointment Made by Qaly in Open Court Today

NEW BRUNSWICK, Feb. 16.—Confirmation of the appointment of Ferd A. David as chief of the county detectives was made by Judge Peter F. Daly in open court this morning.

This action gives Detective David a salary of \$3,000 a year, \$800 more than he has been receiving.

For some time the name of David has been mentioned as Prosecutor Joseph E. Stricker's favorite to fill the position left vacant by the resignation of Richard Pelletier. Judge Daly, however, recognizing John Ferguson's seniority rights, favored the latter.

The prosecutor, it is said, recently spoke of his right to have appointments of this nature in his hand, and Judge Daly in confirming the appointment this morning agreed with this statement inasmuch as the prosecutor is responsible for his men. Judge Daly said that the prosecutor's promotion of David was referred to him last Friday.
