A Cravat Occasion---

The congestion in a certain high-grade Cravat maker's factory has caused him to temporarily sacrifice his price.

What it means to you is that we were privileged to select 200 dozen rich Silk Four-in-Hands in patterns of our choosing—and shall place them on sale Wednesday morning at

\$1.65---Each

You will appreciate the actual values better when you understand that the wholesale prices of these Cravats are \$1.75, \$2.00 and \$2.25.

The fact is, you see, you're buying for materially less than the dealers pay.

HOW'S TRADE?

Hot weather should not cause you to lose any trade because your establishment can be made "the coolest spot in town." A few

When you want to buy a diamond—

First, you go to a reliable jeweler—usually some long established house whose advice you can depend on. Few men know enough about diamonds to trust to their own judgment.

Everything that looks like a diamond is not a real diamond. Just plain wood or steel drawers, with folders and guides, do not of themselves make a filing system. It requires experience and knowledge to get the right system for your particular needs.

We like the way an executive came to us the other day.

"I know my own business," he said frankly, "but I realize that I don't know filing. You men do. I know what I want—you should be able to tell me how to do it."

This man knew that he could depend on Library Bureau. He knew that the problem which seemed difficult to him would prove easy in experienced hands.

Perhaps all you need just now is a better, quicker way of filing credit information. Library Bureau has a system which will eliminate the mistakes and delays that now annoy you.

MANY PROTESTING RENT INCREASES

Complaints for Readjustment
Take Up Sessions of D. C.
Commission.

Complaints asking for adjustments of rent are occupying a large part of the time of the District rent commission, such cases outnumbering all others now being filed with the commission.

Many of these cases are protests by tenants against rent increases made by owners or agents since the rent commission began its work last January. In such instances owners or agents have asked the commission to allow increases said to be necessary because of increased operating cost.

Eight cases for adjustment of rents are scheduled for hearing before the commission tomorrow. They are: Wade H. Reed against Mrs. M. H. Burrell and Thomas E. Petty, to fix rental of 1306 Fairmont street northwest; Fred P. Davis against J. G. Pratt, to fix rental of 1112 East Capitol street; Higley & Richardson, Inc. against Miss Vera E. Adams, to fix rental of apartment 513, Rutland Court, 1725 17th street northwest; same against G. B. Grant, to fix rental of apartment 101, the Cavanaugh, 1526 17th street northwest; P. E. McGivern against W. L. Hutchinson, to fix rental of 1727 North Capitol street; Anna K. Gilbert against Thomas J. Fisher & Co., Inc., agents, to fix rental of apartment 601, 1868 Columbia road; Mrs. Margaret Boynton against the Real Estate Investment Company, to fix rental of 1800 19th street northwest; M. A. Patterson against S. C. D. Prentice against the F. H. Smith Company, agents, to fix rental of apartment in the Plaza, Washington Circle.

Other cases scheduled for hearing tomorrow are: Katie S. Carroll against William E. L. Sanford, for possession of 1335 T street northwest; and Joseph C. Batcher against James Hawkins, for possession of 915 C street southeast.

Reductions in Seven Cases.
Reductions of rent were ordered by the commission in seven cases in which determinations were announced yesterday. Daily rent settlements were reached in three possession cases.

Mrs. S. B. Emerson was allowed a reduction from \$80 a month to \$45 a month. Miss M. L. Nelson was granted a reduction from \$50 to \$45 a month, the premises 926 L street northwest, owned by the Cissel-Talbot Company.

Rent of \$35 a month paid by Lillie Armstrong for an apartment in the Hermitage, 1117 Vermont avenue northwest, was reduced to \$27.50. Harry Collins, occupying an apartment in the building, was granted a reduction in rent from \$45 a month to \$35, while William A. Taylor's rent, also for an apartment in the Hermitage, was reduced from \$50 a month to \$37.50. Gardiner & Dent, Inc., were defendants in the cases.

Alice H. Lyman, tenant of an apartment at 1818 Kalorama road, was granted a reduction from \$50 to \$40 a month, the defendant being I. Gibson White. Miss Mabel Loftis, owner of the Mohawk apartment house, 436 M street northwest, was ordered to reduce the rent of J. C. Cannon from \$29 a month to \$25.50. An increase from \$17.50 a month to \$20 was granted Charles H. Cuts for the first floor of a building owned by him at 1014 Florida avenue northeast, the tenant being Charles L. Lambert.

WAGE PROSECUTIONS HELD UP FOR DECISION

Board Agrees Not to Bring Action for Violations Pending Injunction Suits.

The minimum wage board has agreed that while suits for injunctions against the wage of \$16.50 for women in eating establishments, hotels, clubs, apartments and hospitals are pending before the District Supreme Court proprietors will not be prosecuted for failure to pay the wage, said Jesse C. Adkins, chairman of the board.

To clarify this agreement, the wage board yesterday issued the following official statement:

"Owing to general misunderstanding of its position prosecutions for violation of minimum wage board order No. 4, the board has issued the following statement:

"The order establishing a minimum wage of \$16.50 for all women employed in hotels, restaurants, clubs, apartment houses, lodging and boarding houses and hospitals went into effect on May 24, 1920. Because there is pending a case to test the constitutionality of the law before the courts some individuals have taken this to mean that the operation of the order has been suspended pending a settlement of the case. The board is of the opinion that it has not the power to suspend the operation of the order, but it does agree not to support cases of violation to the corporation counsel for prosecution pending the decision of Justice Swayne."

"This agreement on the part of the board in no way interferes with the provision of the law which gives women employees paid less than the minimum the right to recover the full amount of the minimum wage less any amount actually paid to them by their employers."

WHY IS IT

That "rheumatism" is apt to be worse during the period between winter and summer? Because "rheumatism" is not a germ disease, but a result of failure of the body to get rid of irritating and waste material that has increased in amount when the body cleans house in the spring. Cells that are tired or lazy or that have been over-worked, need to be repaired and encouraged—not by drugs, but by what doctors call food-medicine, which Nature has provided to build up—not to brace up. Father John's Medicine contains the greatest of such natural food-medicines. It has no drugs, no alcohol. It has been used for over sixty years. Try it.

Are You One of These?

In this big hustling, growing city of Washington, with its throbbing, pulsing stream of humanity passing along our principal thoroughfares from early morning until late at night, there moves many a man and many a woman who is ambitious to own the beautiful furniture displayed in the show windows, but is held in check only by the thought, "Will we be able to pay?"

A very sensible thought indeed—people should know that they will be able to pay before contracting for anything not of vital necessity. But what constitutes ability to pay? Is it not the power to earn and to enjoy that power? What greater incentive for right living can anyone have than a home furnished comfortably and attractively, creating an environment in which one can make worth while plans and put them into execution?

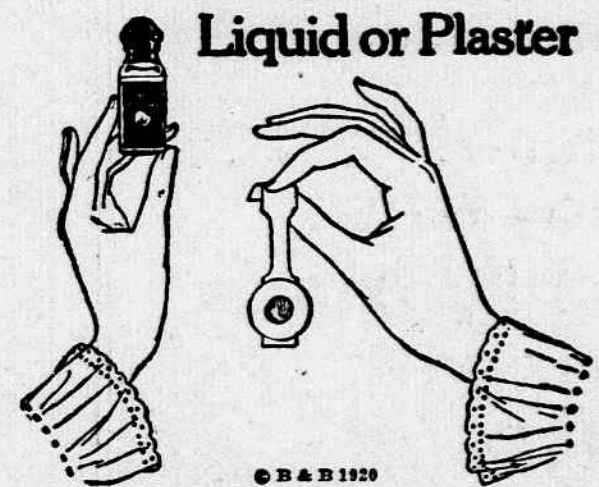

Good Furniture, therefore, is an investment; it assists us to be more efficient; makes us better and happier citizens.

This store knows the class of men and women who appreciate the opportunity of buying furniture on convenient and easy terms. If you belong to that class, won't you feel that your interests and ours are mutual? Won't you see our furniture, select the pieces you want and then let us tell you how easily they may be obtained?

They end corns now in this scientific way

People who know—millions of them—now end all corns in this way.

They apply Blue-jay, either in liquid or in plaster form. It means but a touch and takes but a jiffy.

The corn pain stops. Then the Blue-jay gently undermines the corn so it loosens and comes out.

The modern way
Blue-jay was invented by a chemist who studied corns.

It is made by a laboratory of world-wide repute.

Old-time treatments were harsh and inefficient. Blue-jay is gentle, quick and sure.

Now all corns are needless. All these pains can be avoided. To let corns remain while you are paid them is folly.

You can stop a corn ache the moment it appears. You can end a corn completely before it can develop.

Blue-jay has proved these facts to millions. It will prove them to you—and tonight—if you let it.

Quit the old methods of dealing with corns and see what this new way means. Your druggist sells Blue-jay.
