SUICIDE.

Owing to Continued Despondency. Joseph J. Schen, sixty-seven years of age, committed suicide yesterday by taking laudanum. He had been in poor health for several months and had been very despondent. Schen took, it is believed, about a third of an ounce of laudanum, drinking the poison Saturday evening at 6 o'clock. He was attended by Drs. Hotchkiss and Kirby. He became unconscious at 11 p. m., the poison having taken too severe a hold of the system to yield to medical treatment. Schen died early yesterday morning. Medical Examiner White made an investigation and decided that death was due to laudanum poisoning. Schen was a native of Belgium and leaves a widow and son. He resided at 127 Starr street.

IN AND ABOUT THE COURTS

KANE BOUND OVER TO THE SUPERIOR COURT.

Liverman Cannon Examined by His Creditors—Saloonkeeper Cameron Assigns—City Court Cases.

William Kane, who was arrested in Springfield Friday night at the request of Captain Cowles and brought to New Haven by Detective Sergeant Denny, the following day, was bound over to the April term of the superior court by Judge Dow in the city court yesterday morning. His bond has been fixed at \$1,000, which he has thus far been unable to furnish.

Kane is charged with assault and robbery on the person of James Lynch, a vegetable peddler in the employ of John Franklin of Nash street, the act being committed on the night of January 22 last in the saloon of Joseph Gausell on West Water street. Kane stole money and vegetables from Lynch and also assaulted the latter, knocking him down and otherwise violently abusing him.

CANNON EXAMINED.

Burton F. Cannon, the horse dealer on George street, whose petition for a discharge from his debts is being opposed by Selah C. Mallory, one of the other creditors, was under examination yesterday forenoon in Judge Newton's court. This is the third hearing in the case. Attorney William A. Wright, the counsel for Mallory, claimed that some of the books belonging to Cannon had been concealed. Cannon yesterday testified that he had not used a ledger in three years and was unable to produce one in this case. His statement was corroborated by John M. Cannon and Max Smith, the barbers. The examination was concluded and the attorneys will submit their claims on the statement of facts on Monday next.

On the petition of Jacob Cohen of Waterbury there was no appearance and no trustee was appointed. Cohen has no assets.

FINAL HEARING HELD.

Before Referee Newton yesterday afternoon a final hearing was held on the bankruptcy case of H. Vetch & Son. The firm has been adjudged bankrupt in the United States court.

TO FORECLOSE MECHANIC'S LIEN

Suit has been brought in the city court by William A. Warner & Brother against John F. Post et al. to foreclose a mechanic's lien of \$57 on a house and lot on Cottage street, for which the plaintiff company furnished the materials used in building the house. Damages of \$100 are asked.

SUIT OF FORECLOSURE.

In the city court, civil side, yesterday was filed the case of William A. Warner & Bro., vs. J. F. Post, Elbert H. Sperry & Co., Louis A. Manafield, James E. Connor, Clerk & McDonald, and Michael Carroll. This is a suit for foreclosure. Porter bought a lot on Cottage street and built a house there. Warner & Co. furnished the lumber and this suit is to recover a balance of \$78.11 for it. The additional defendants summoned in have mechanic's liens on the premises, amounting to much more than the Warner claim.

The theft case against Teresa Collica was continued to February 15. James Davis was sent to jail for five days for begging while drunk, and Daniel Cornell given ten days for a similar offense. They hail from Bridgeport.

Theodore Arnold was sent to jail for thirty days for vagrancy and begging.

William Barazone, arrested for embezzlement of a bicycle from the McGowan Cycle company, secured a continuance of his case to February 15.

George W. Stillson was fined \$5 and costs for resisting an officer.

HELD YESTERDAY AFTERNOON.

Final Meeting of Creditors of Robert Vetch & Son.

The final meeting of the creditors of Robert Vetch & Son, the florists, was held in Lawyer Henry G. Newton's office yesterday afternoon. Referee Newton decided that taxes secured from a lien on real estate mortgaged for more than the value are not to be paid from personal assets. That question was a spirited one and was debated at length. Willis E. Miller, the mortgagee, took the appeal to Judge Townsend's court. The decision will be looked forward to with great interest by members of the bar in New Haven.

CONTRAST IN WEATHER.

A Healthy Blizzard Was in Progress One Year Ago Yesterday.

The weather conditions yesterday were in marked contrast to those of one year ago. February 12 last year was one of the worst days of the winter. A healthy, well-developed blizzard, which lasted from midnight to midnight, was in progress and something like thirteen inches of snow fell. The temperature of the day was never higher than 4 degrees above zero. Yesterday the weather was of the mildest nature, and according to the weather man promises to continue so for several days. The mildness is quite general throughout the country, except at Williston, N. D., where the thermometer managed to register 4 degrees below zero yesterday morning.

In Baltimore, Washington, Atlanta and New Orleans steady rains were falling yesterday and heavy fogs prevailed. At 8 o'clock yesterday morning the thermometer registered 35 degrees in New York, 36 in Albany and 38 in Boston. The highest temperature, 74 degrees, was at Key West.

Ives, inspector for the New Haven Water company, has the deep sympathy of many friends in his sorrow and bereavement, as has also the widow of the deceased, who resides at 356 Washington avenue. The late Mr. Ives was twenty-eight years old. When the deceased was laid out on the stretcher he called for Engineer Gould to come to him: "Well, Gould, I guess I am done for," he whispered. "Give my love to my wife and my little children, won't you? Tell them I thought of them in the hour of death."

Medical Examiner White made an investigation and decided that death was due to accident.

O'Sullivan, the well-known politician and physician. Crowds assembled at St. Mary's church and the house, and there was scarcely room for the carriages to approach either.

IDENTIFIED BY HIS WIFE.

The Late Lawrence Henry, Who Died at the Almshouse.
Mrs. Henry of Naugatuck, who as mentioned yesterday accidentally heard of the death of Lawrence Henry, her husband, at the almshouse here, had the police of Naugatuck inquire as to the identity of the Lawrence Henry who died at Springside. She was advised to come to New Haven and ascertain for herself, which she did yesterday morning. She didn't ask to see the body, but Clerk Rowe showed her a photograph taken several years ago, and she identified it as that of her husband. She left without claiming the body, and it was turned over to the Yale medical school. Mrs. Henry lives in Naugatuck with two grown-up children, who work in one of the rubber shops. Her husband had done nothing for the support of his family for over fourteen years.

DIED AT SPRINGSIDE.

James Post, a man about sixty-seven years of age, died at Springside home of heart disease yesterday afternoon. He had been at Springside and at the state insane asylum for nearly all the time since 1855. In that year he was taken to the state hospital for the insane in Middletown. POSTAGE STAMPS IN BOOKS.

Convenient Scheme Devised by Postoffice Department.

Postmaster Howarth has received notice from Mr. Madden, the third assistant postmaster general, that an innovation has been introduced in his department, in the shape of the issuance of stamps in book form. The books will be sold to the public at a slight increase in cost and it is believed that users will greatly appreciate the new idea. It will surely prove a great convenience and buyers will undoubtedly be willing to pay the slight advance in cost. The idea was originated by Mr. Madden and the other, department officials of the postoffice are greatly pleased with it.

The third assistant postmaster general has charge of the postage stamps and Mr. Madden has been at work for a long time trying to devise some scheme to prevent stamps from sticking together. He hit on the scheme of a book with alternating leaves of stamps and paraffine paper, and a cover of thick paper and developed it to perfection. The book has been issued and on the cover is printed a succinct statement of the postal rates in the United States and foreign countries.

The book is small and can be carried in the pocket conveniently. They will be made up to contain stamps to the amount of 24 cents, 45 cents and 95 cents. For this convenience the general public will have to pay only one cent. The books will be ready in two or three months and will be on sale at the postoffice and the sub-stations in this city.

CHICKEN THEIVING CASE IN BRANFORD.

Branford, Feb. 12.—The little court house at North Branford was crowded to-day by farmers who wanted to witness the trial of Clarence Hickok and Louis Appel, who were arrested by Deputy Sheriff Beach of North Haven last week on the charge of raiding hen-rocks in this vicinity.

The men pleaded not guilty, and were defended by Attorney Charles H. Fowler of New Haven. Attorney Zachar appeared for the prosecution, and Justice Linsley tried the accused. Deputy Sheriff Beach, who ran the men down, and secured evidence of wholesale raids committed by them, was the chief witness for the state. Probable cause was found and the men were bound over to the next term of the superior court.

Why Teeth Decay.

How many people know that over twenty-two kinds of germs—all concerned in the decay of the teeth—have been discovered in the human mouth? It is now a well understood fact that certain diseases, even though they first manifested in remote parts of the body, are caused by germs taken through the mouth in the acts of breathing and swallowing. It is reasonable to assume that the daily use of an active germicide in the mouth is an effective method of preserving the teeth from decay.

Willard's Antiseptic

Tooth Powder

is an active germicide and disinfectant and yet it is perfectly harmless. Put up in large four-ounce bottles.
